Run Loop Modes

Common surprises

Run Loop Modes

Common surprises

```
[NSTimer scheduledTimerWithTimeInterval:1.0  
    target:self  
    selector:@selector(handleTimer:)  
    userInfo:nil  
    repeats:NO];
```

Run Loop Modes

Common surprises

```
[NSTimer scheduledTimerWithTimeInterval:1.0  
    target:self  
    selector:@selector(handleTimer:)  
    userInfo:nil  
    repeats:NO];
```

```
NSTimer *timer = [NSTimer timerWithInterval:1.0  
    target:self  
    selector:@selector(handleTimer:)  
    userInfo:nil  
    repeats:NO];
```

Run Loop Modes

Common surprises

```
[NSTimer scheduledTimerWithTimeInterval:1.0  
                                target:self  
                                selector:@selector(handleTimer:)  
                                userInfo:nil  
                                repeats:NO];
```

```
NSTimer *timer = [NSTimer timerWithInterval:1.0  
                  target:self  
                  selector:@selector(handleTimer:)  
                  userInfo:nil  
                  repeats:NO];  
[[NSRunLoop mainRunLoop] addTimer:timer forMode:NSCommonRunLoopModes];
```

Run Loop Modes

Common surprises

Run Loop Modes

Common surprises

```
[self performSelector:@selector(performDelayedWork)
    withObject:nil
    afterDelay:1.0];
```

Run Loop Modes

Common surprises

```
[self performSelector:@selector(performDelayedWork)
      withObject:nil
      afterDelay:1.0];
```

```
[self performSelector:@selector(performDelayedWork)
      withObject:nil
      afterDelay:1.0
      inModes:@[NSCommonRunLoopModes]];
```

How not to do it

UIResponder and Event Delivery

How not to do it

```
- (void)touchesBegan:(NSSet *)touches withEvent:(UIEvent *)event
{
    [[self nextResponder] touchesBegan:touches withEvent:event];
}
```

UIResponder and Event Delivery

How not to do it

```
- (void)touchesBegan:(NSSet *)touches withEvent:(UIEvent *)event
{
    [[self nextResponder] touchesBegan:touches withEvent:event];
}
```

UIResponder and Event Delivery

How not to do it

```
- (void)touchesBegan:(NSSet *)touches withEvent:(UIEvent *)event  
{  
    [[self nextResponder] touchesBegan:touches withEvent:event];  
}
```

Deceleration Targets

Deceleration Targets

```
- (void)scrollViewWillEndDragging:(UIScrollView *)scrollView  
    withVelocity:(CGPoint)velocity  
    targetContentOffset:(inout CGPoint *)targetContentOffset
```

Deceleration Targets

```
- (void)scrollViewWillEndDragging:(UIScrollView *)scrollView
    withVelocity:(CGPoint)velocity
    targetContentOffset:(inout CGPoint *)targetContentOffset
{
    *targetContentOffset = ClosestCarOffset(*targetContentOffset);
}
```
