Lifecycle of an Intent

Resolve

```
success(with:)
```

Your app matched the user's request to a specific person

Lifecycle of an Intent

Resolve

```
confirmationRequired(with:)
```

Your app would like the user to confirm the resolved person

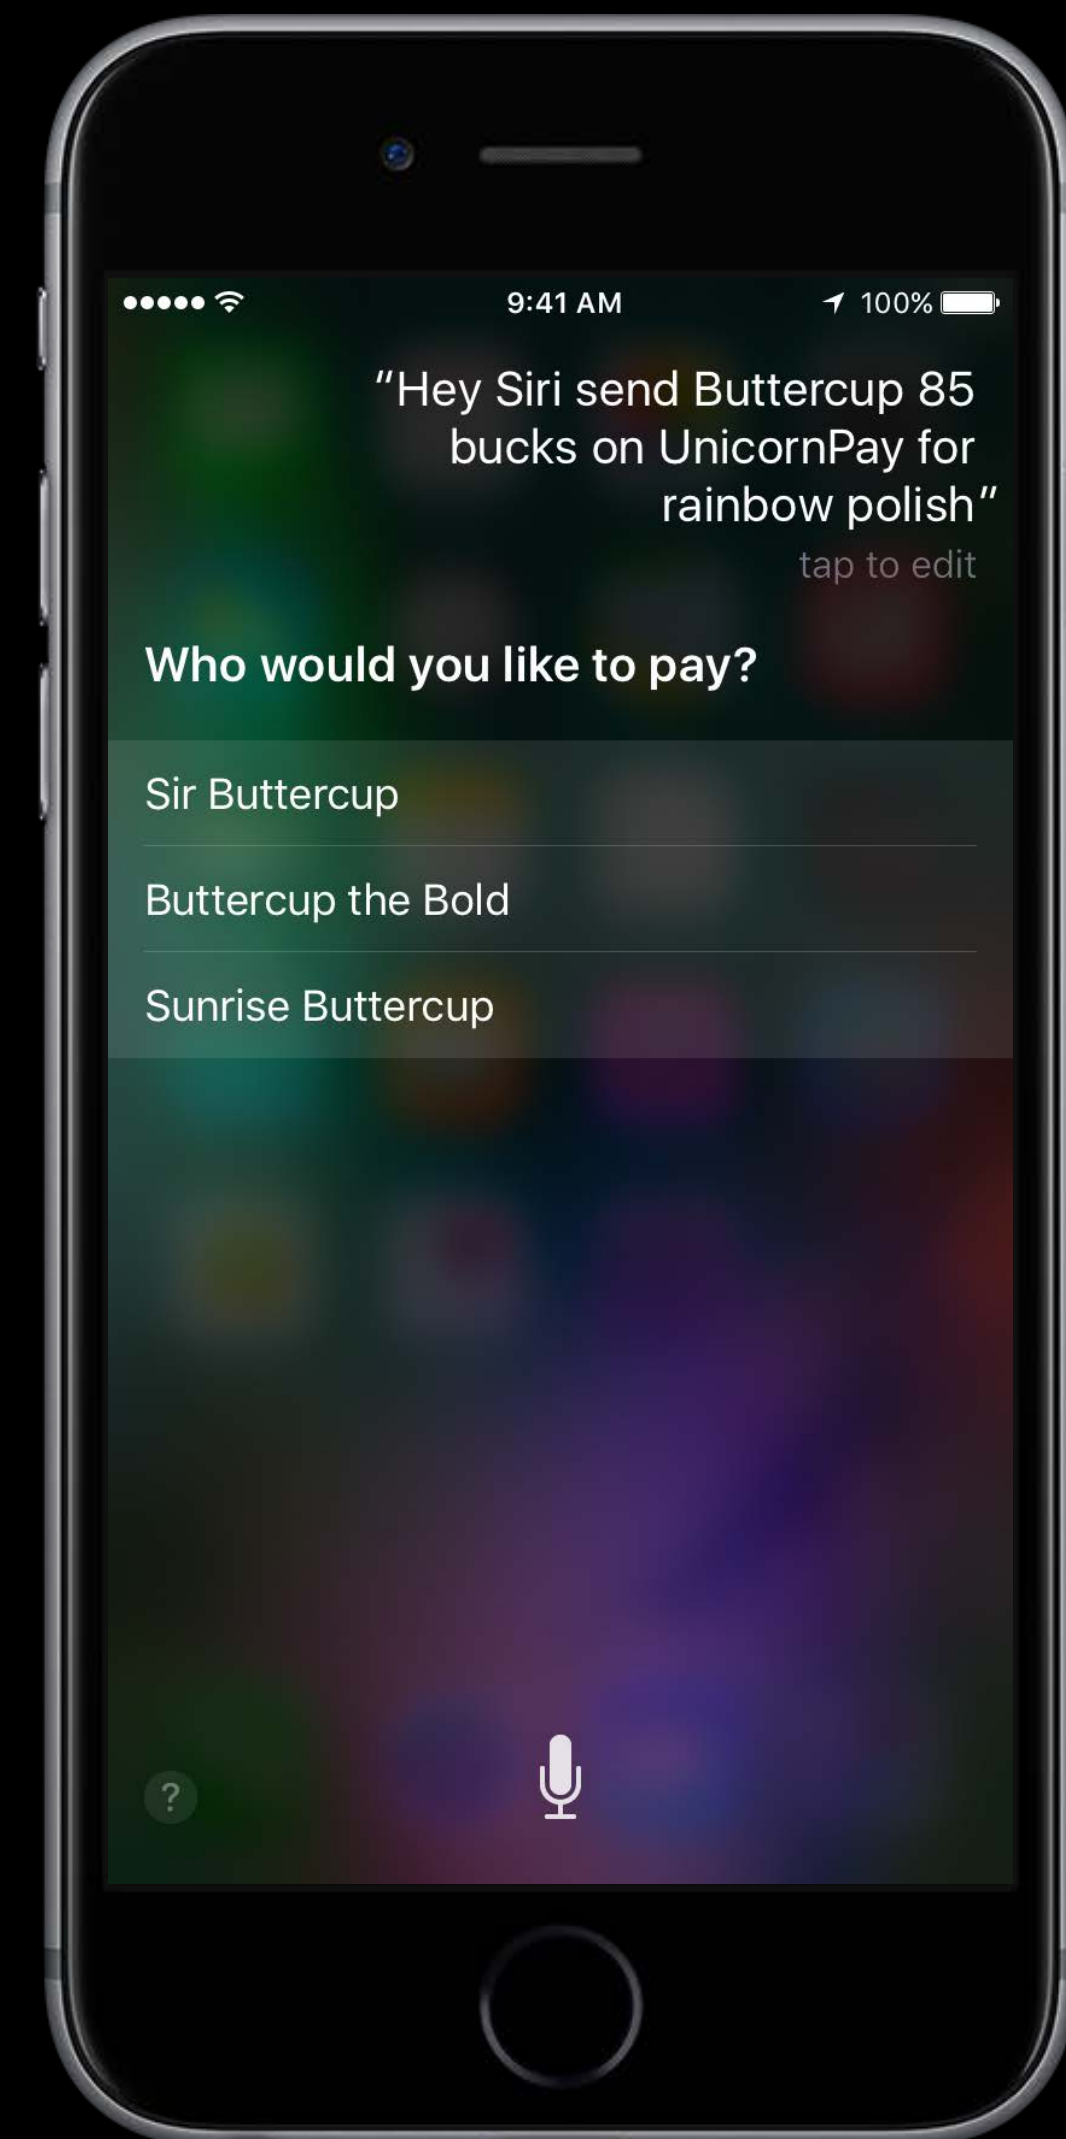

Lifecycle of an Intent

Resolve

`disambiguation(with:)`

Your app needs the user to select from a list of people

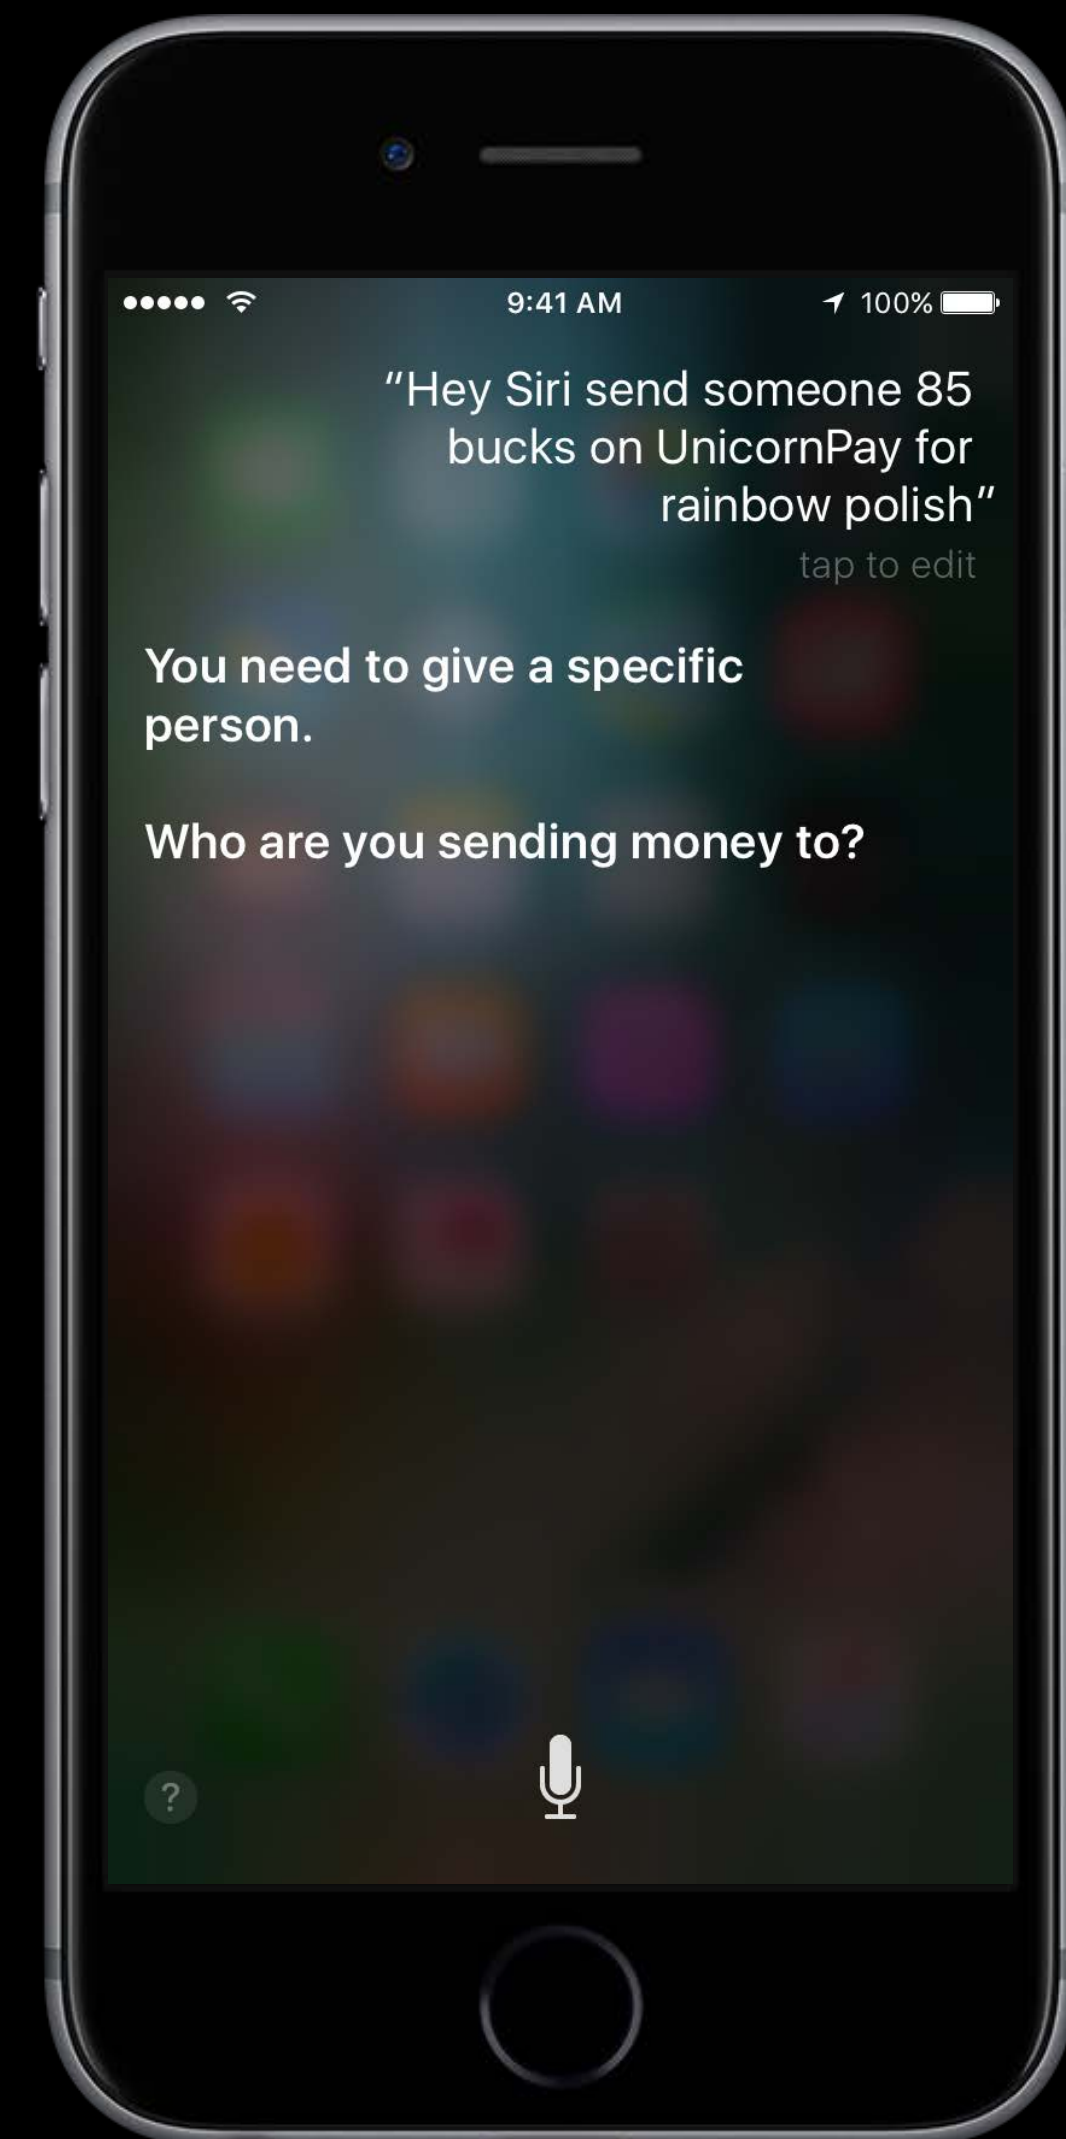

Lifecycle of an Intent

Resolve

`needsMoreDetails(for:)`

Your app had insufficient information to resolve the person, and would like Siri to ask the user to be more specific

Lifecycle of an Intent

Resolve

needsValue

Your app requires a value be specified,
but no value was provided

Lifecycle of an Intent

Resolve

`unsupportedWithReason`

Your app can't use the specified value

Lifecycle of an Intent

Resolve

`notRequired`

Your app doesn't require a value for this parameter
