Wide variety of  
targeting options to fit  
your goals and target  
audience

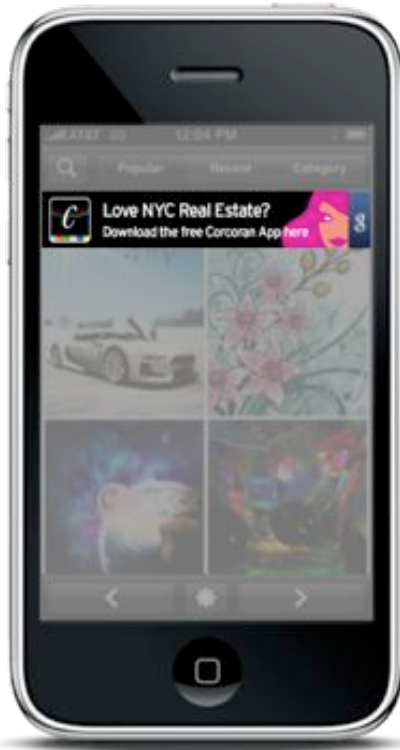

## Tools

Easy performance  
reporting and detailed  
conversion tracking

# Reach users when they are engaged in mobile

While they are  
spending time in apps

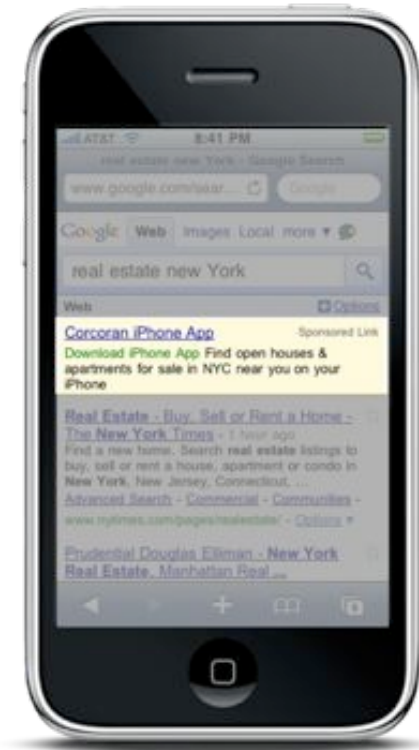

Mobile Ads for Apps

While they are engaged  
with content on the web

Mobile Ads for Content

While they are searching  
for information on-the-go

Mobile Ads for Search

# Case Study

Driving app downloads with in-app advertising

SS CTR with Google Mobile Ads [for Apps] is consistent and often even better than what we currently see [on desktop].... clicks are great, but even more impressive, is the direct effect on app downloads. SS

Matthew Shadbolt  
Director of Internet Marketing for The Corcoran Group

## Results

**Improved performance**  
8 to 10 times higher CTR

**Increased downloads**  
Achieved an estimated 20% of total app downloads

# Start promoting your app, for free

**I/O Attendees:** receive free advertising with Google AdWords when you monetize your app with Google AdSense for Mobile Applications

You create ads...

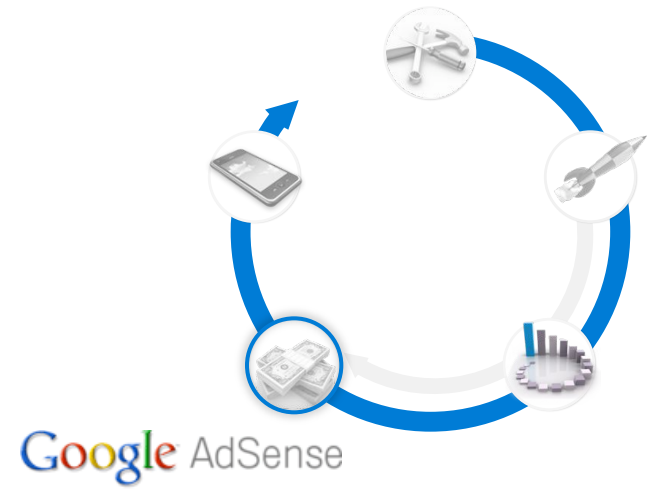

Your ads appear on mobile devices...

People click to download your app.

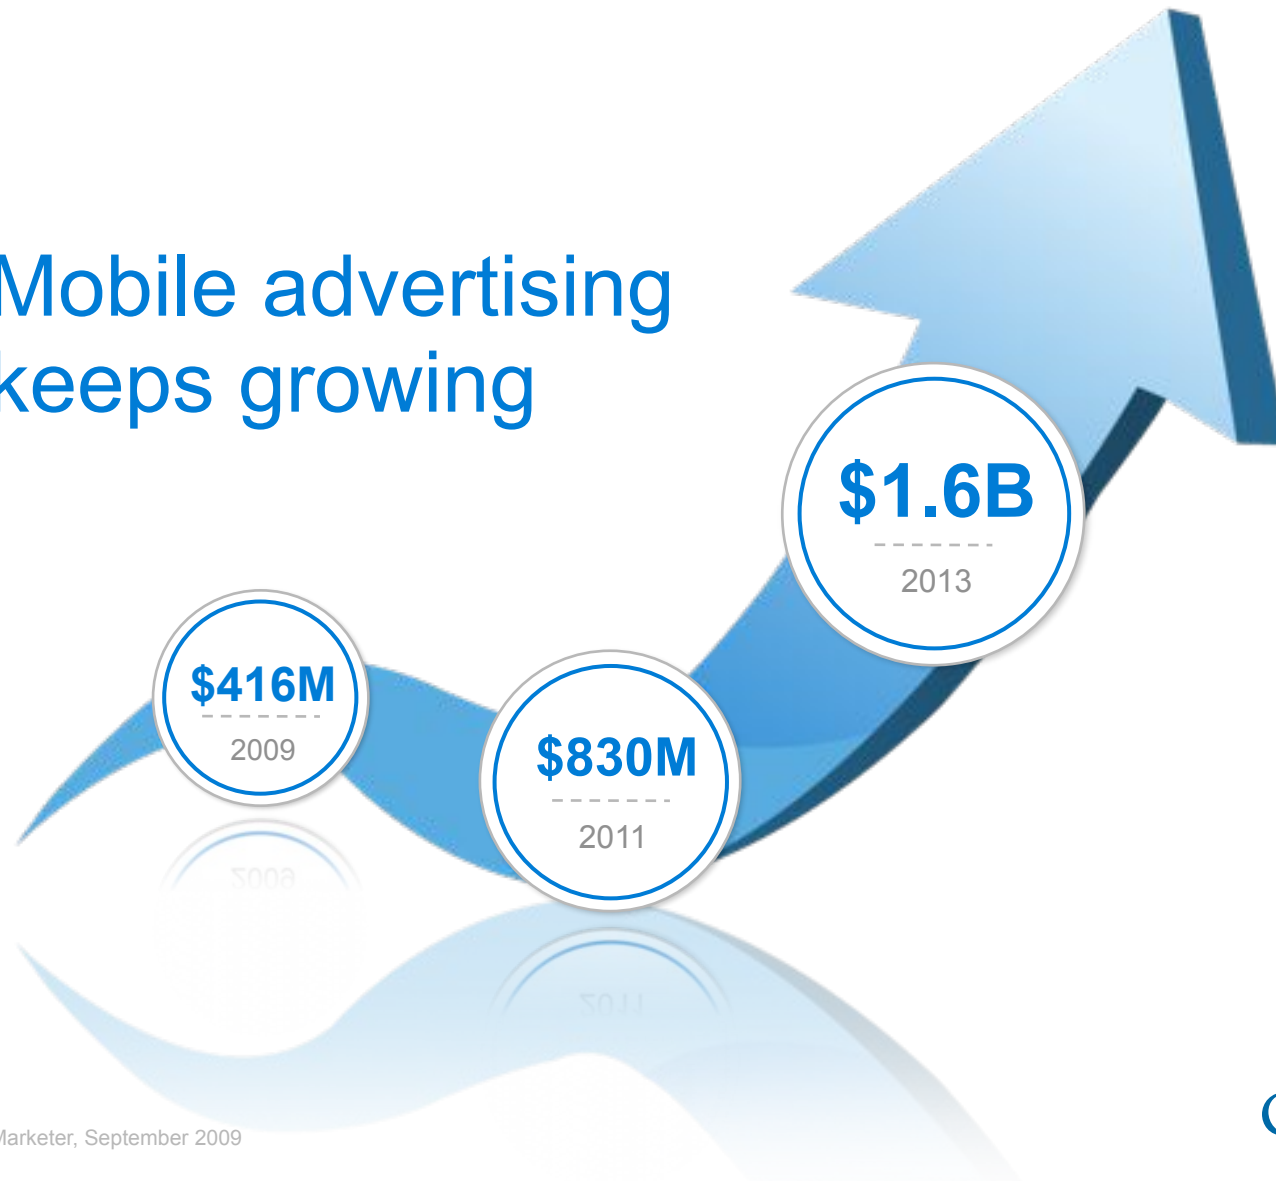

## Earning from your app

# The monetization opportunity

Mobile advertising  
keeps growing

Source: eMarketer, September 2009

# Harness the growing opportunity

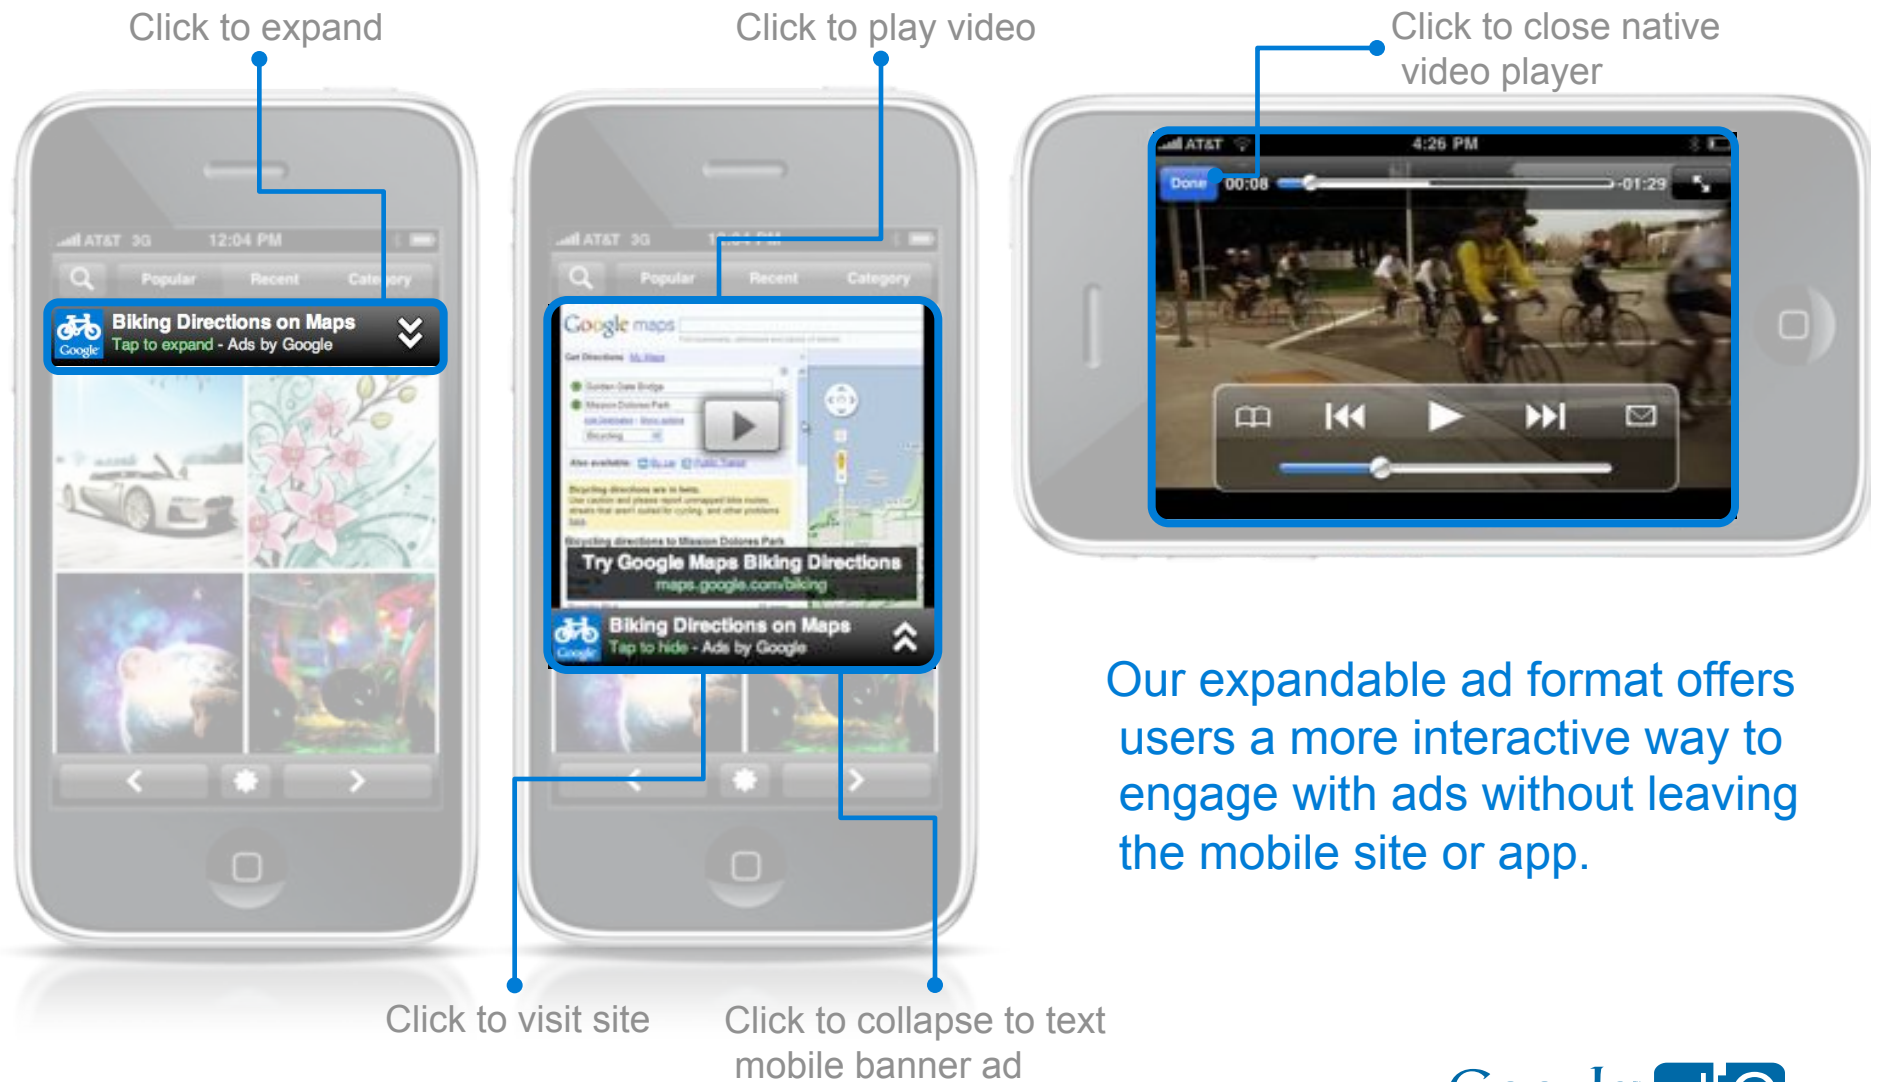

## AdSense for Mobile Apps

allows you to earn revenue by placing Google ads within your app that are relevant to your users.

# Monetize quickly and reliably with Google

# Innovative ad formats

Our expandable ad format offers users a more interactive way to engage with ads without leaving the mobile site or app.

# SDK implementation demo

A LITTLE CODE, A LOT OF  
ADVERTISERS:

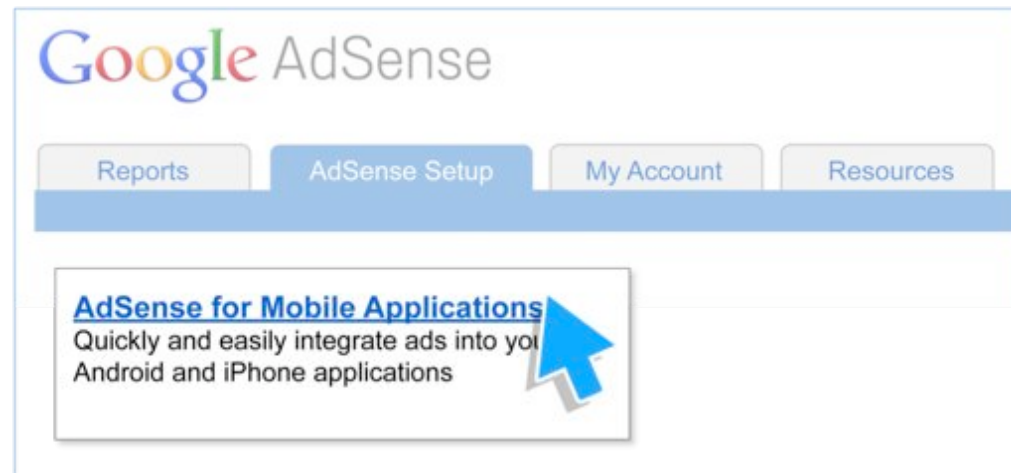

1. MODIFY LAYOUT
2. ADD PERMISSIONS
3. CODE
