

THE BODEGA PROJECT ON JAVA.NET

Brian Murphy

Sun Microsystems

Overview

- Go to <https://bodega.dev.java.net>
 - > Or <https://jini.dev.java.net> – click on **bodega** subproject
- Serves multiple purposes
 - > Organizes and unifies new & old tutorial/example material
- Clearinghouse for the project owner's presentations/articles
- Archives examples and info from old jini.org projects
 - > Different owners over time
 - > Different viewpoints, processes, mechanisms
- All related to Jini and JavaSpaces

The Primary *Bodega Distribution*

- Text-based installer – ***java -jar install.jar***
- Documentation
- Example code
 - > Service based example (DevDeploy Stock example)
 - > JSK configurations from jini.org
 - > TBD: Hello from starter kit & RayTrace from jini.org
- Development and deployment framework
 - > For building:
 - > ant ***build.xml*** files
 - > Shell/bat scripts – ***jant*** or ***jant.bat***
 - > For execution: shell/bat scripts – ***jrun*** or ***jrun.bat***

Going Forward

- Emphasis on documentation and explanation
 - > Examples are for learning, not for demo
 - > Code does not run right out of the box, must be built first
 - > Emphasizes development, deployment, configuration
- Will add more documentation and example code as time permits
 - > ***The Bodega distribution is a work in progress***
- Will add new presentations/articles when appropriate
- No intention to update/maintain the archived material
 - > Provided primarily for reference
 - > Select examples may be integrated into Bodega dist.

Walking Through The Distribution

- Install the Bodega distribution
 - > <https://bodega.dev.java.net/download/download-info.html>
 - > Download the file ***install.jar***
 - > From command line: **java -jar install.jar**
- Build the Bodega distribution
 - > From the command line
 - > **cd <installDir>/example**
 - > **bin/jant**
 - > **bin/jant jars**
- Use/explore the Bodega distribution
 - > Browse the documentation
 - > **file:/<installDir>/example/index.html**
 - > Run the example applications – experiment
