

# What are those Sun Jini™ guys doing?

**Mark Hodapp**

Director, Advanced Technology Group  
Sun Microsystems, Inc.

# Sun's Directions:

( See Jonathan's blog at <http://blogs.sun.com/jonthan> )

- Horizontal scale
- Storage systems
- Web-based services
- Identity and security
- Open\*

# Interesting Market Directions

- Horizontal Scale
  - > Large clusters/grids and parallel algorithms
  - > Google as the 'competitor'
  - > Sun Grid Retail Compute Utility
  - > Amazon Elastic Compute Cloud
- Software as a Service
  - > Google Apps for Your Domain
  - > Yahoo! Small Business
  - > salesforce.com
  - > Amazon Web Services offering
  - > Microsoft Windows Live
- 'Free Beta' galore....

# Group's Direction:

- Distributed computing experts investigating and creating technologies for developers
  - > Components
  - > Systems
  - > Platforms
  - > Applications
- Technologies
  - > Java/RMI/Serialization
  - > Jini Technology/JavaSpaces
  - > Compute Server Project ( [computeserver.developer.network.com](http://computeserver.developer.network.com) )
  - > More...
- Housed under Sun's Chief Technology Office
