DATA COMPLETENESS

VOLATILITY OF DATA
SOURCES

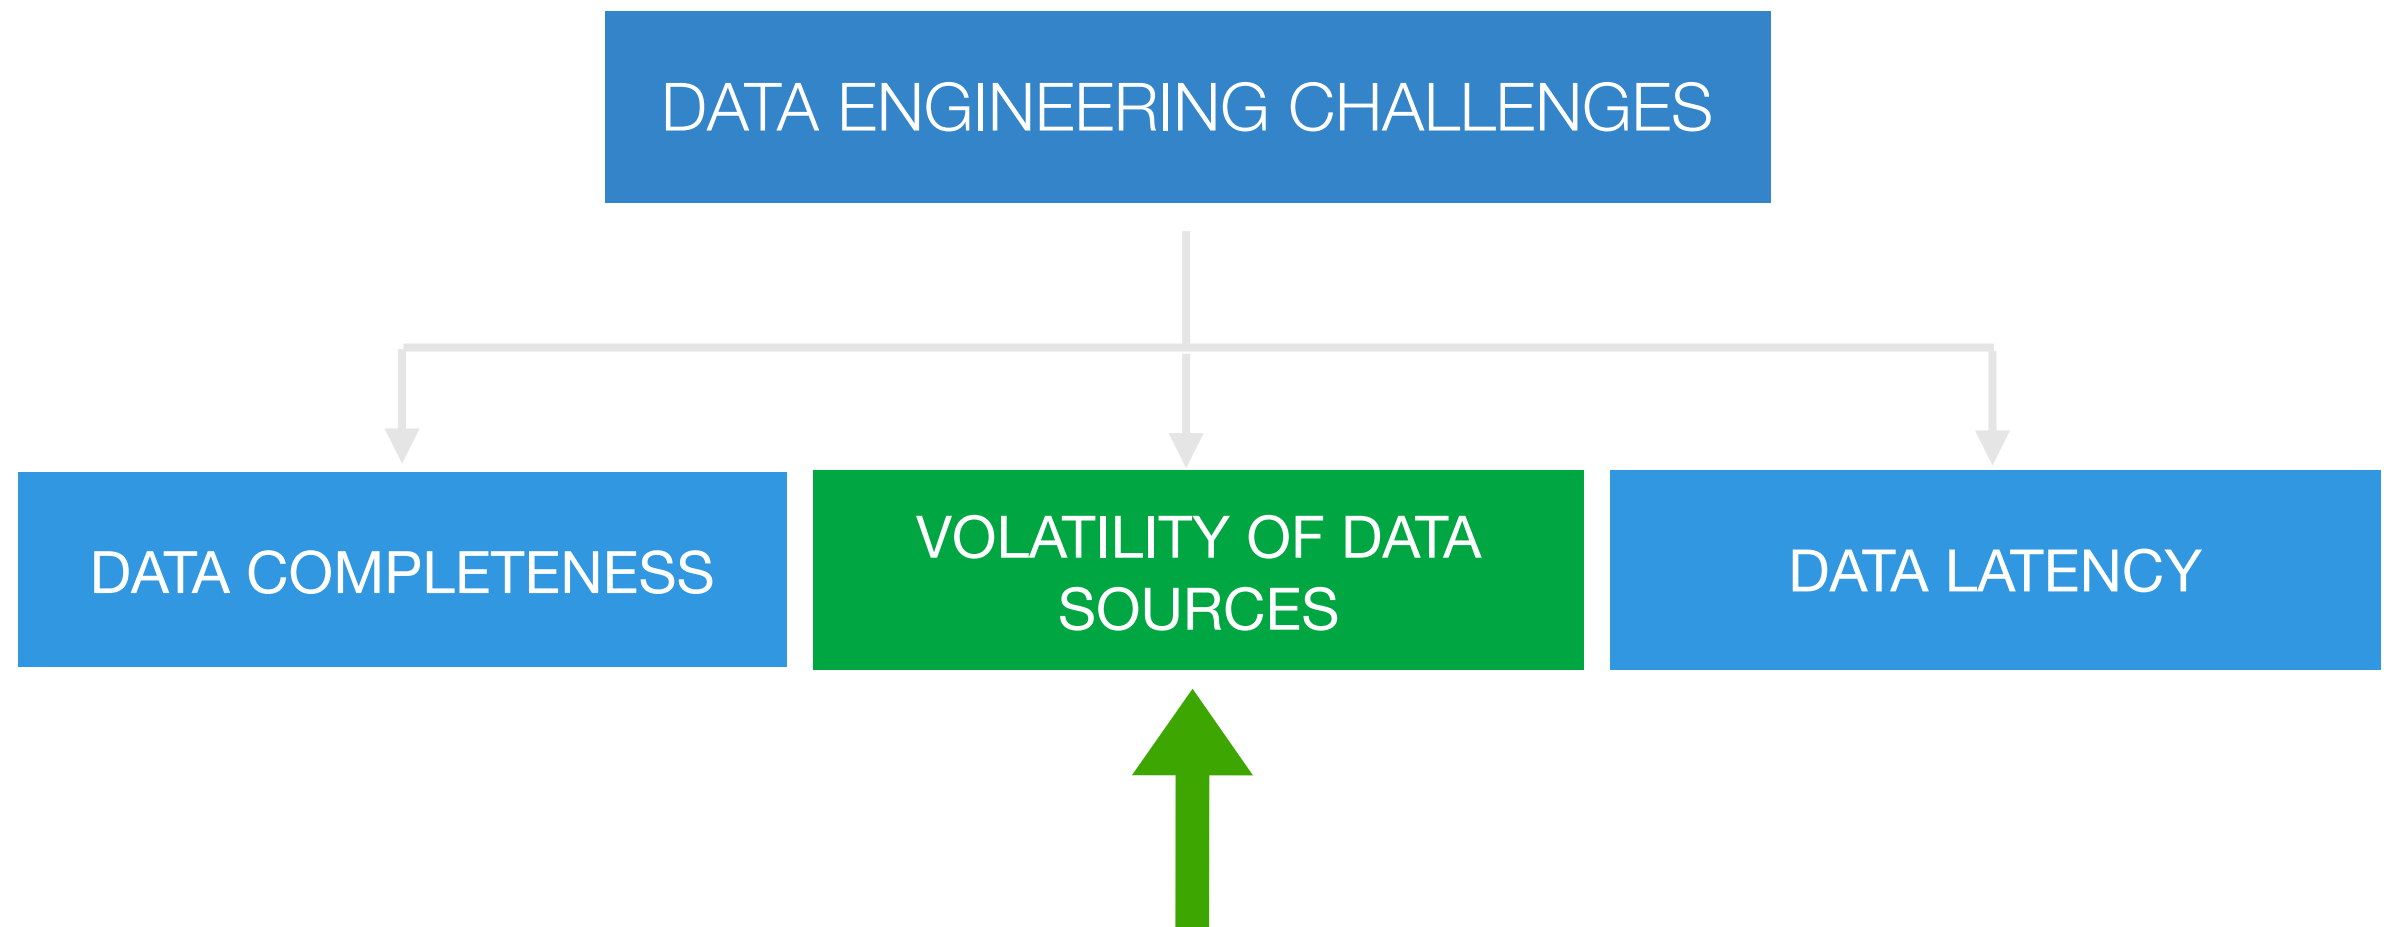

DATA LATENCY

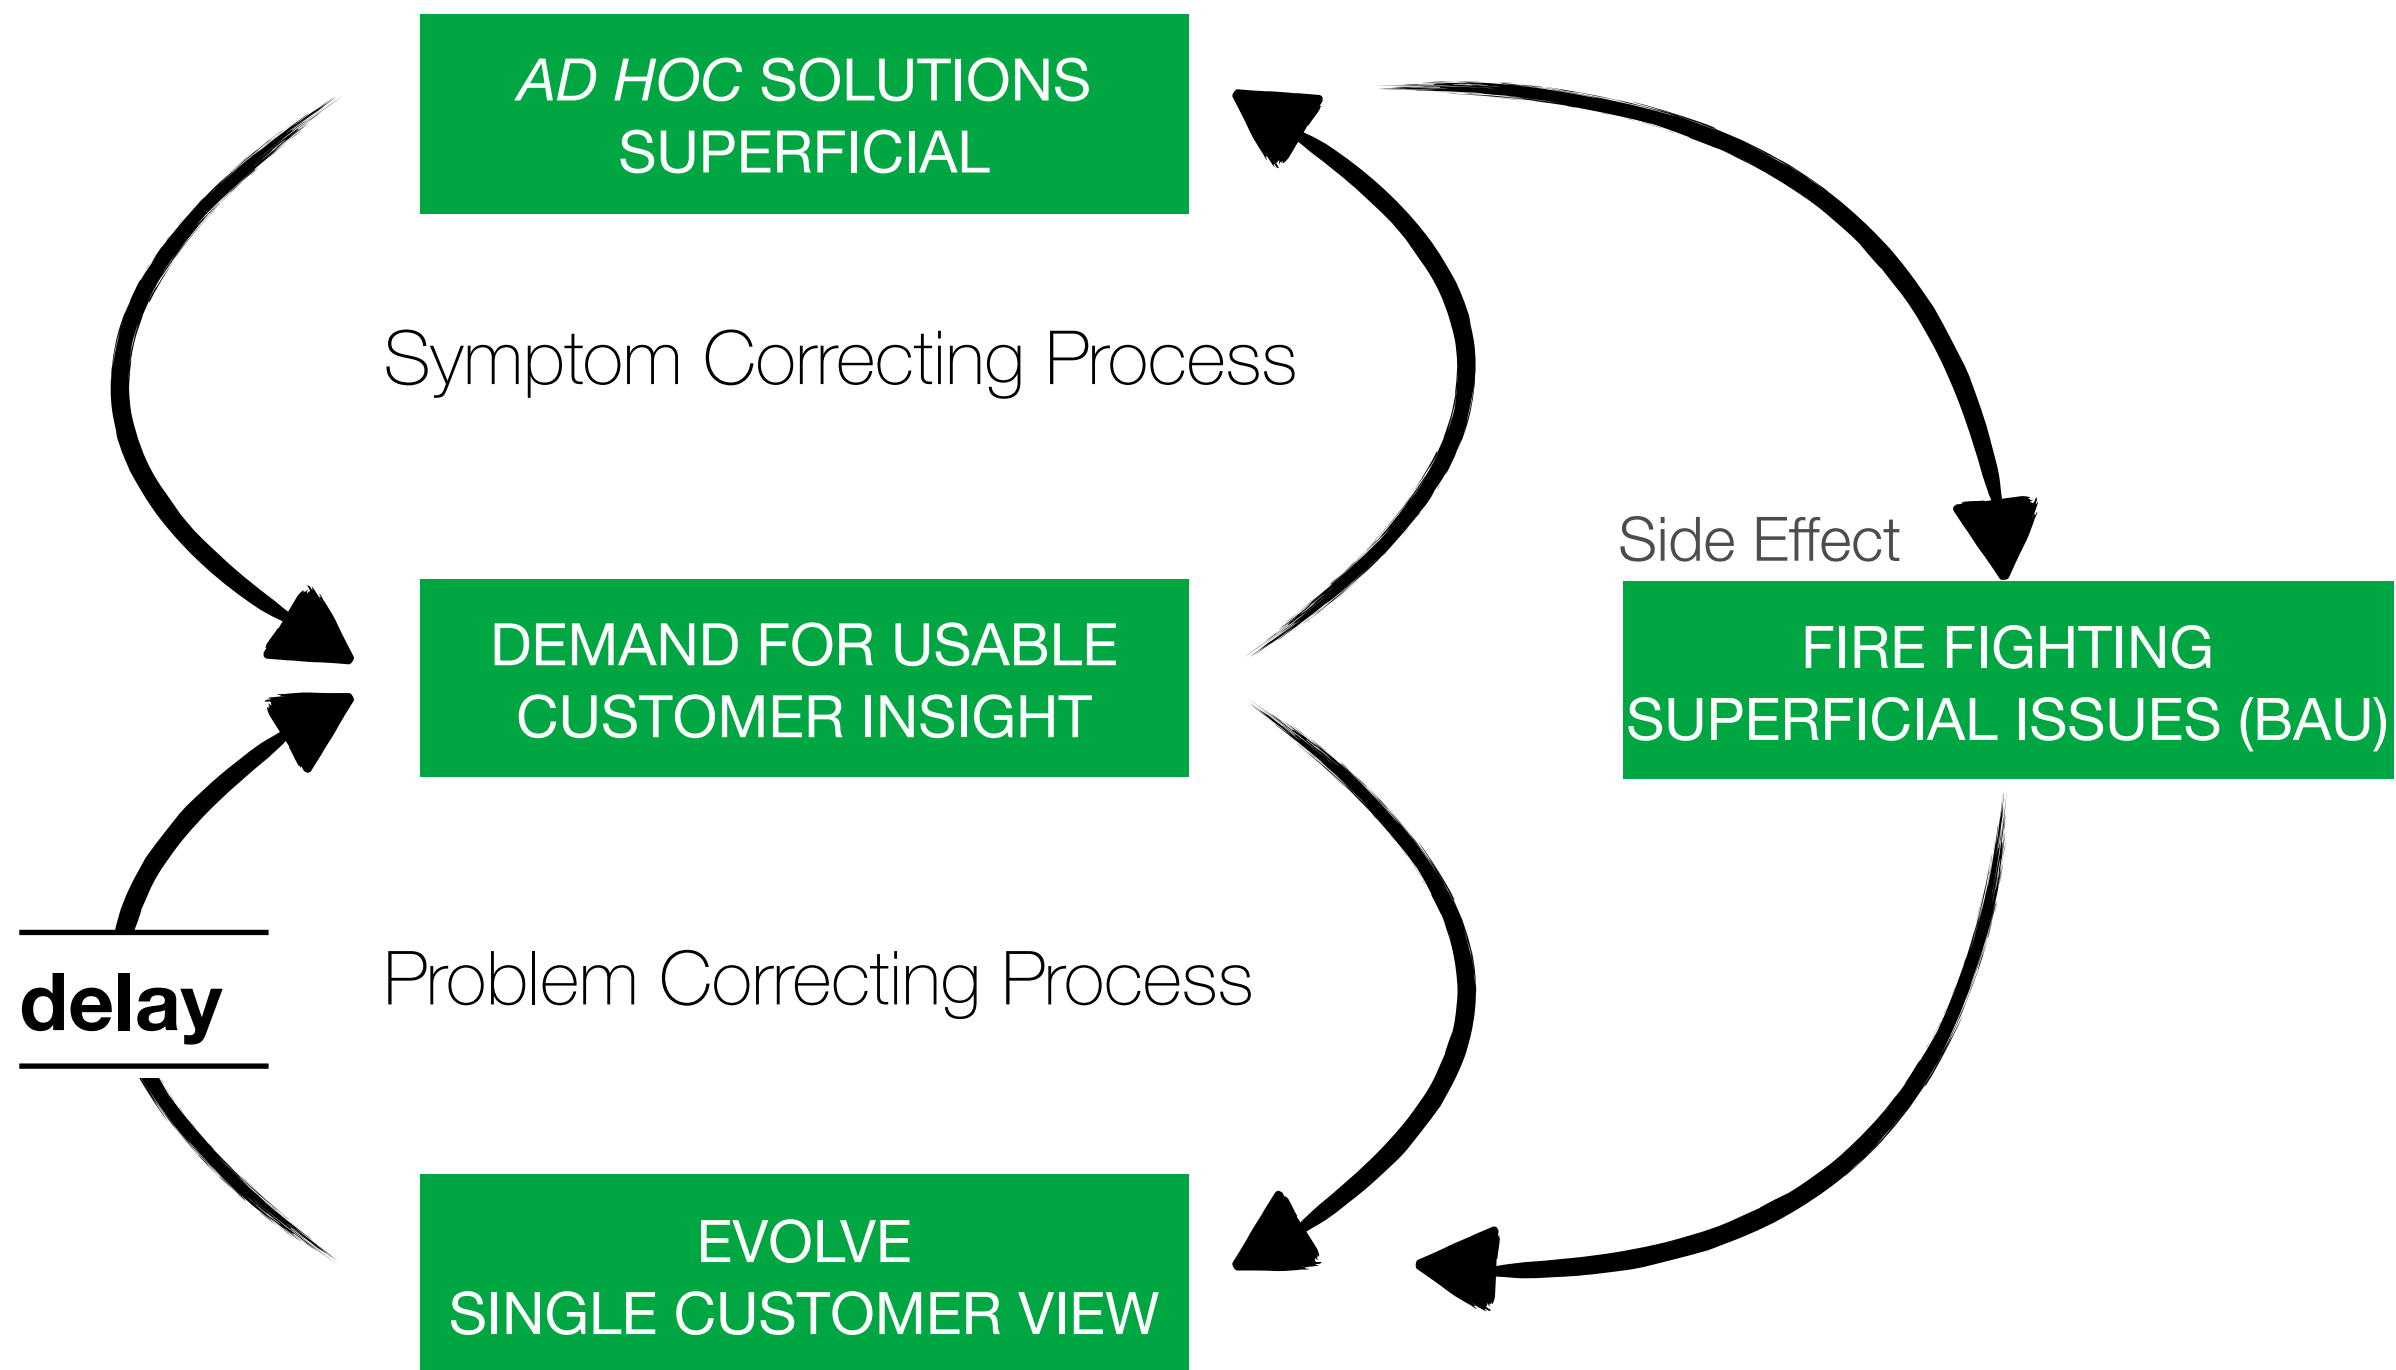

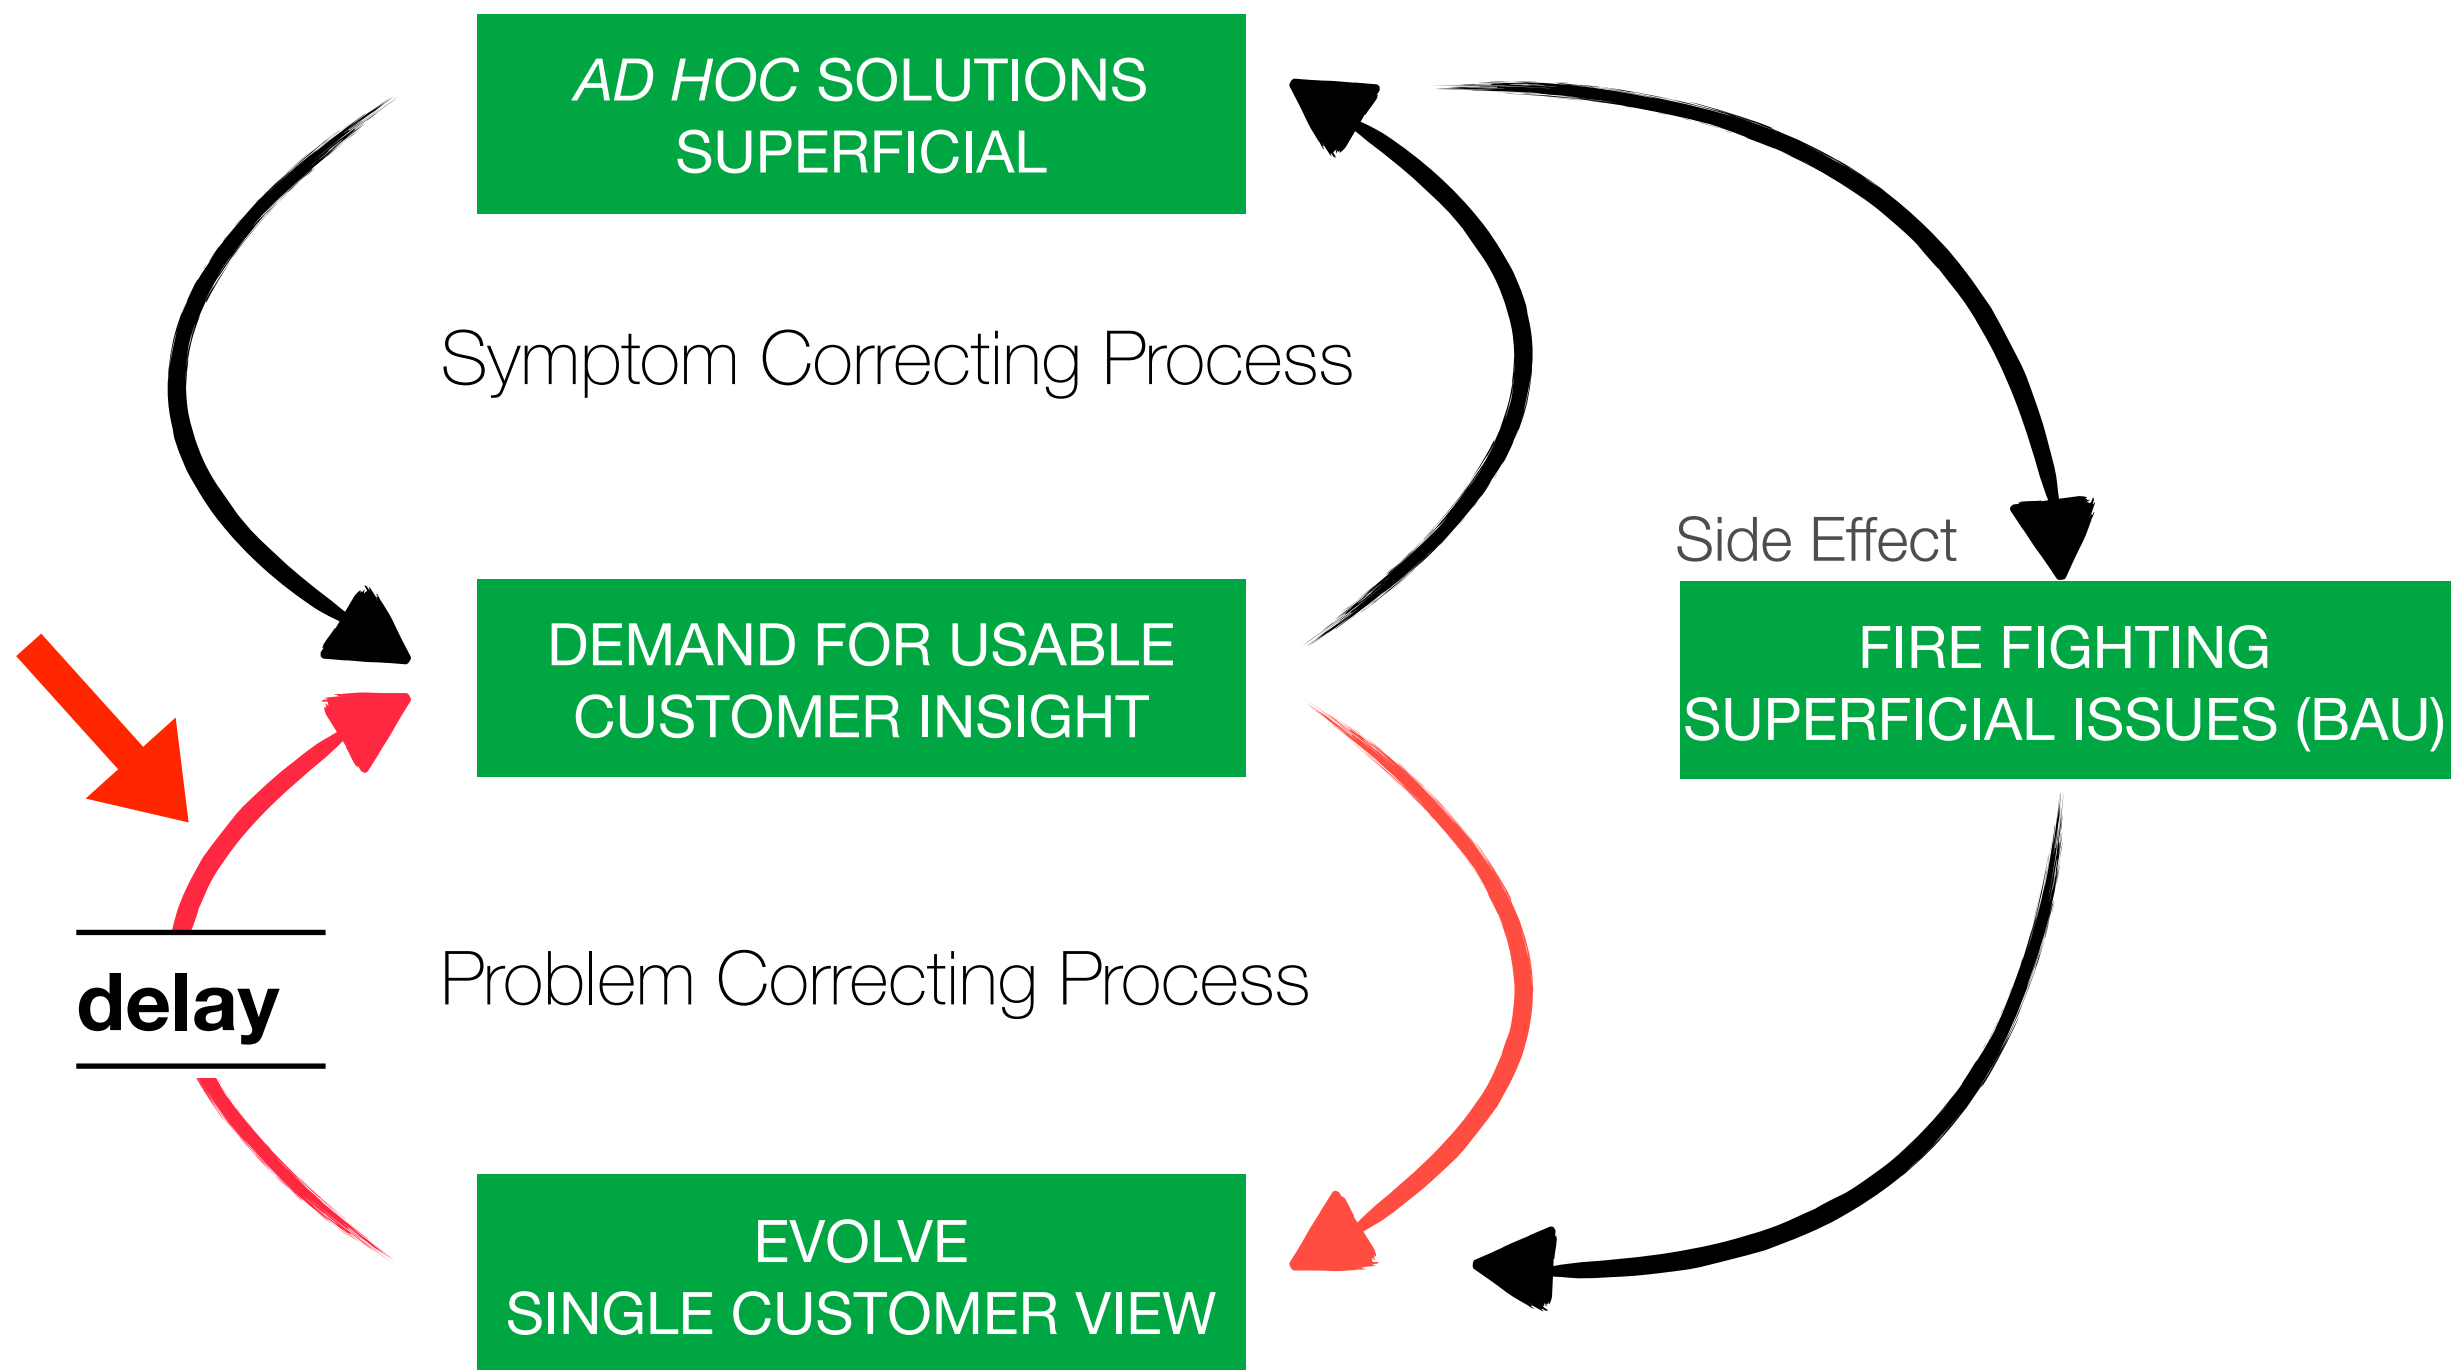

2013/14 Evolution stalling

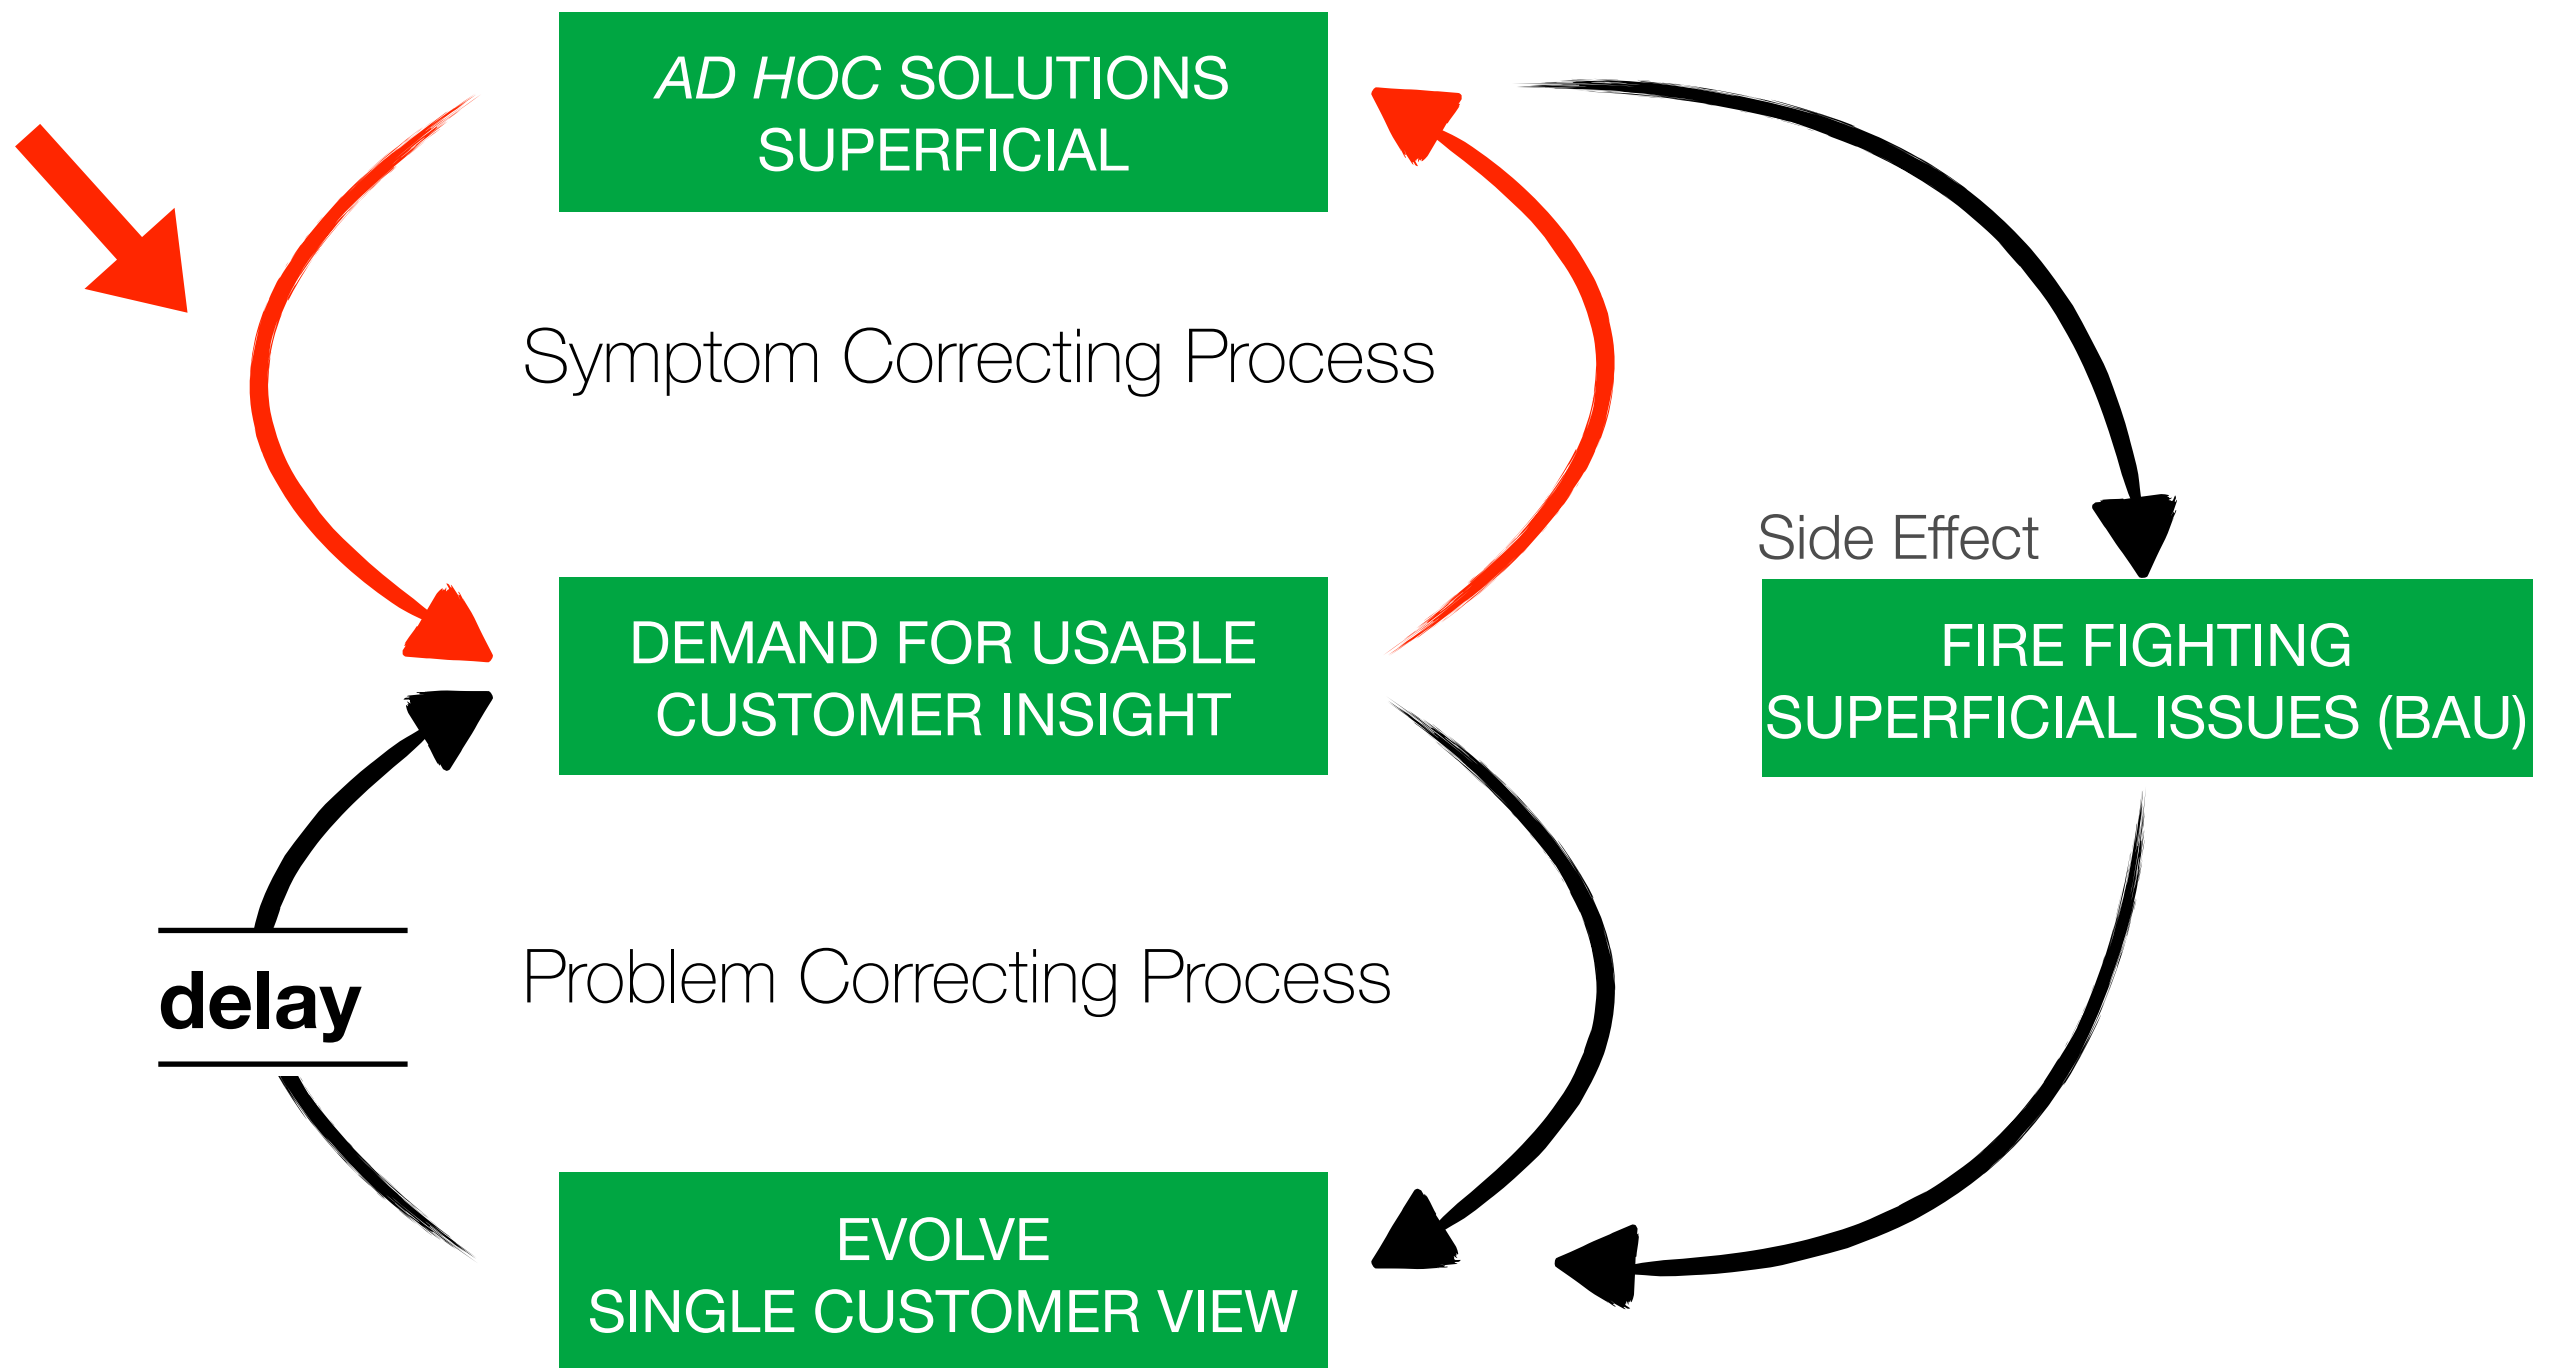

but a data warehouse is a foundation that supports operational efficiency

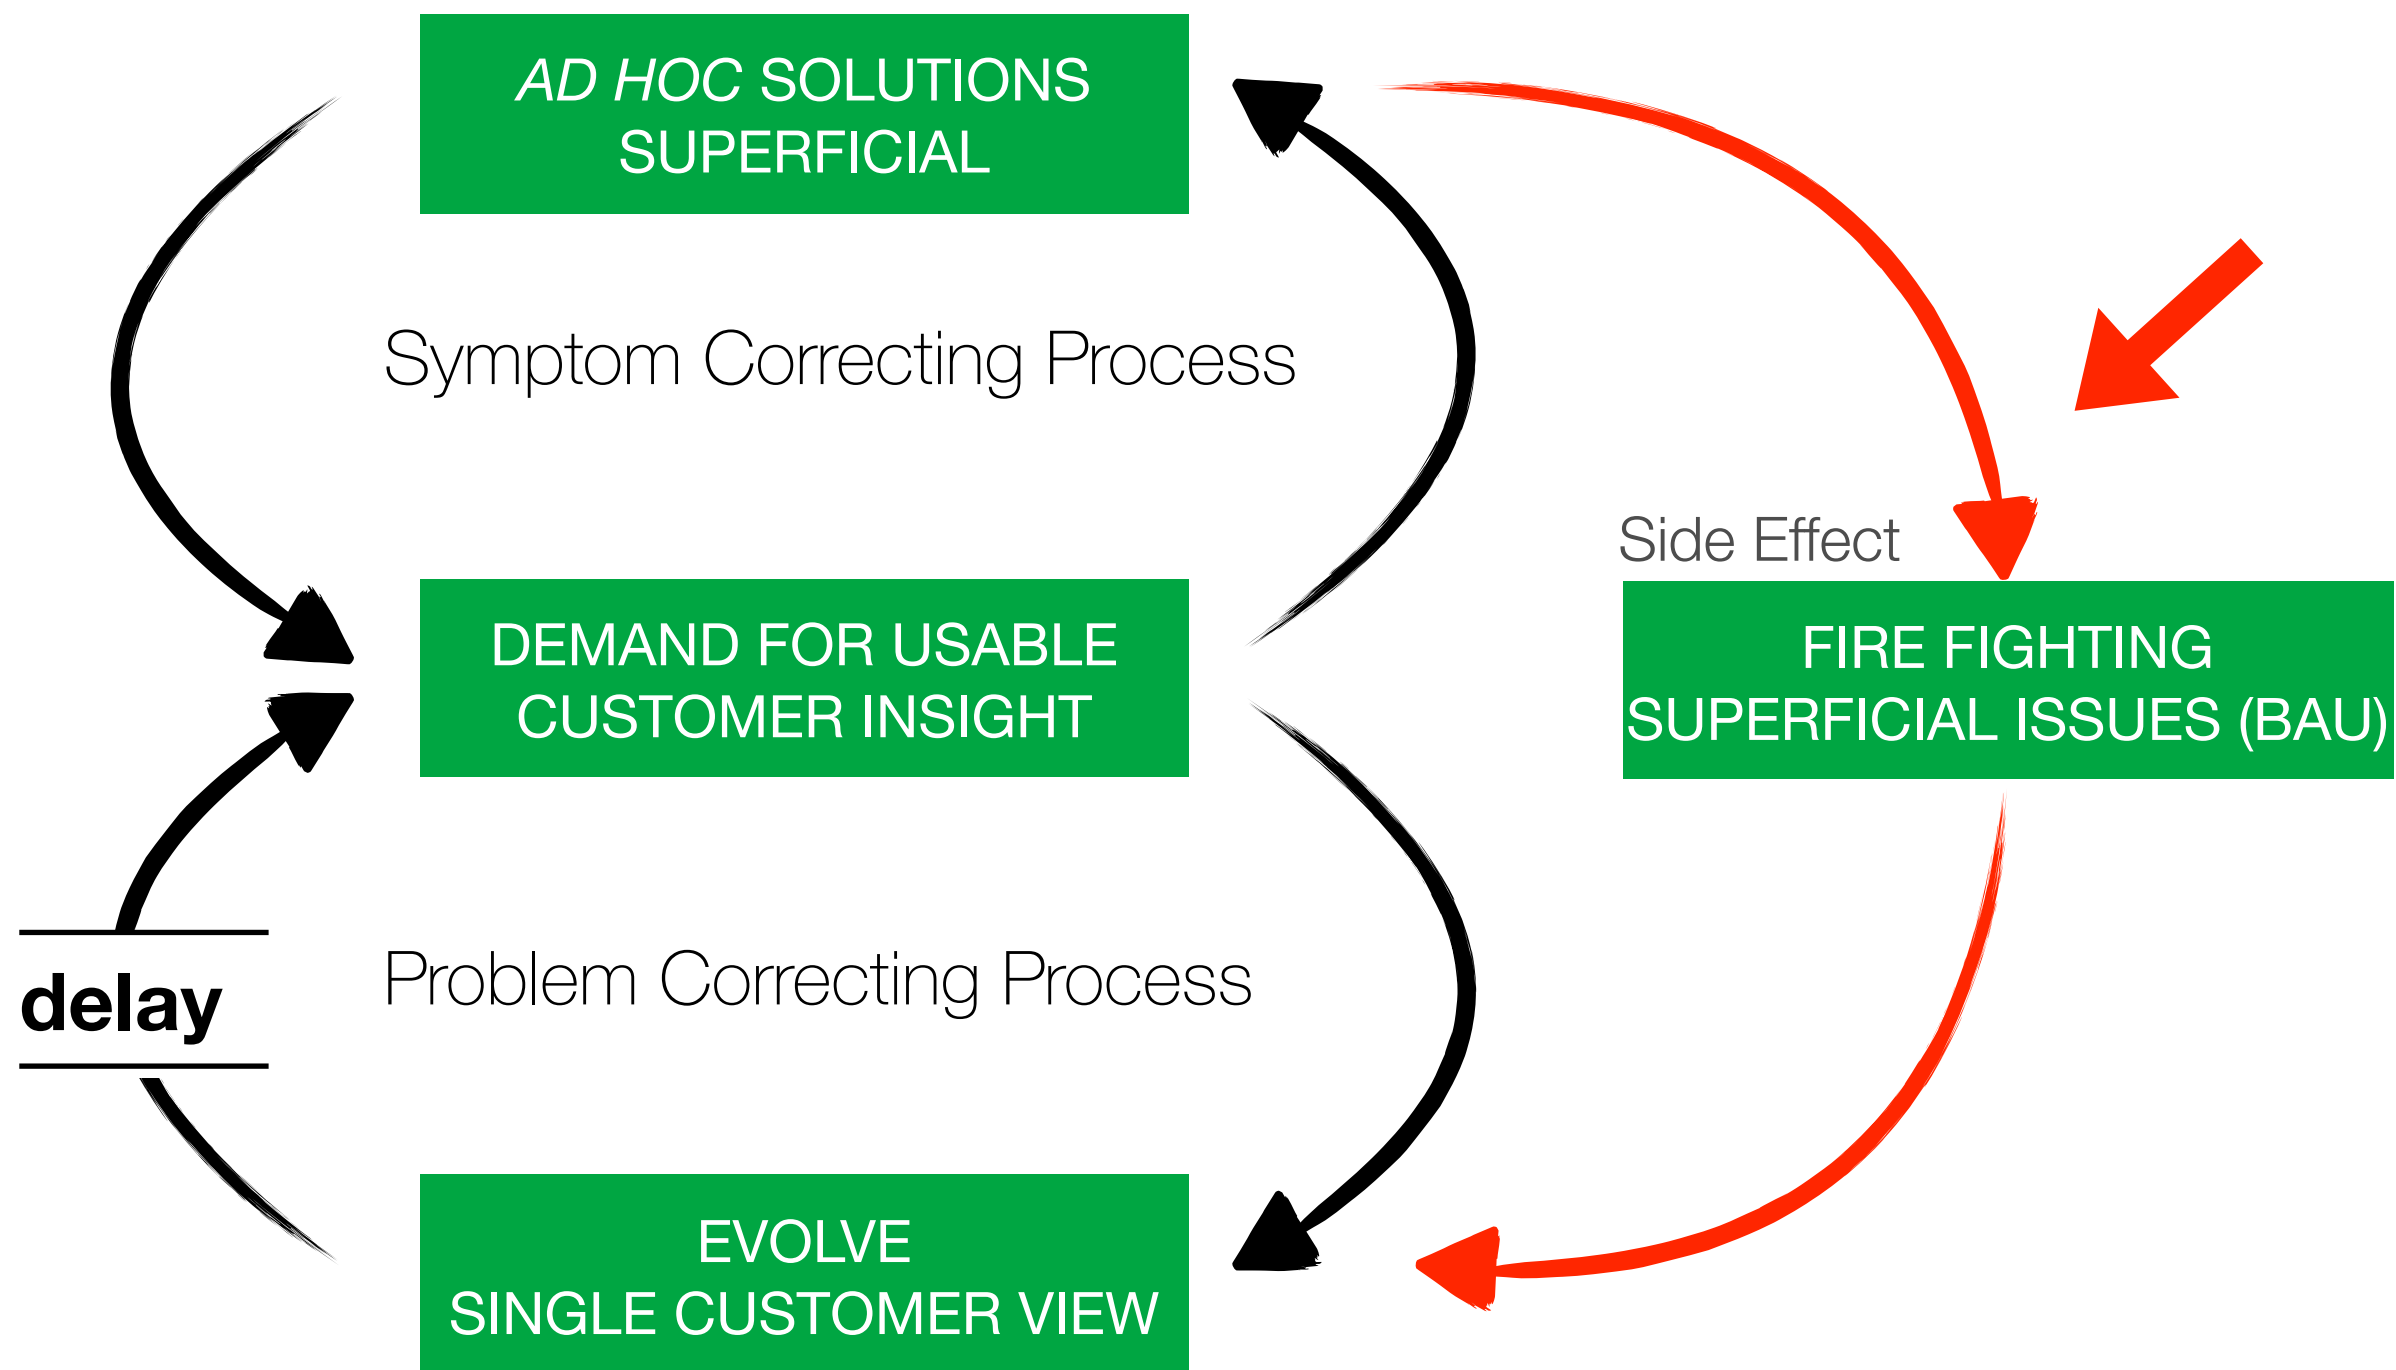

2013/14 Demand overloading supply

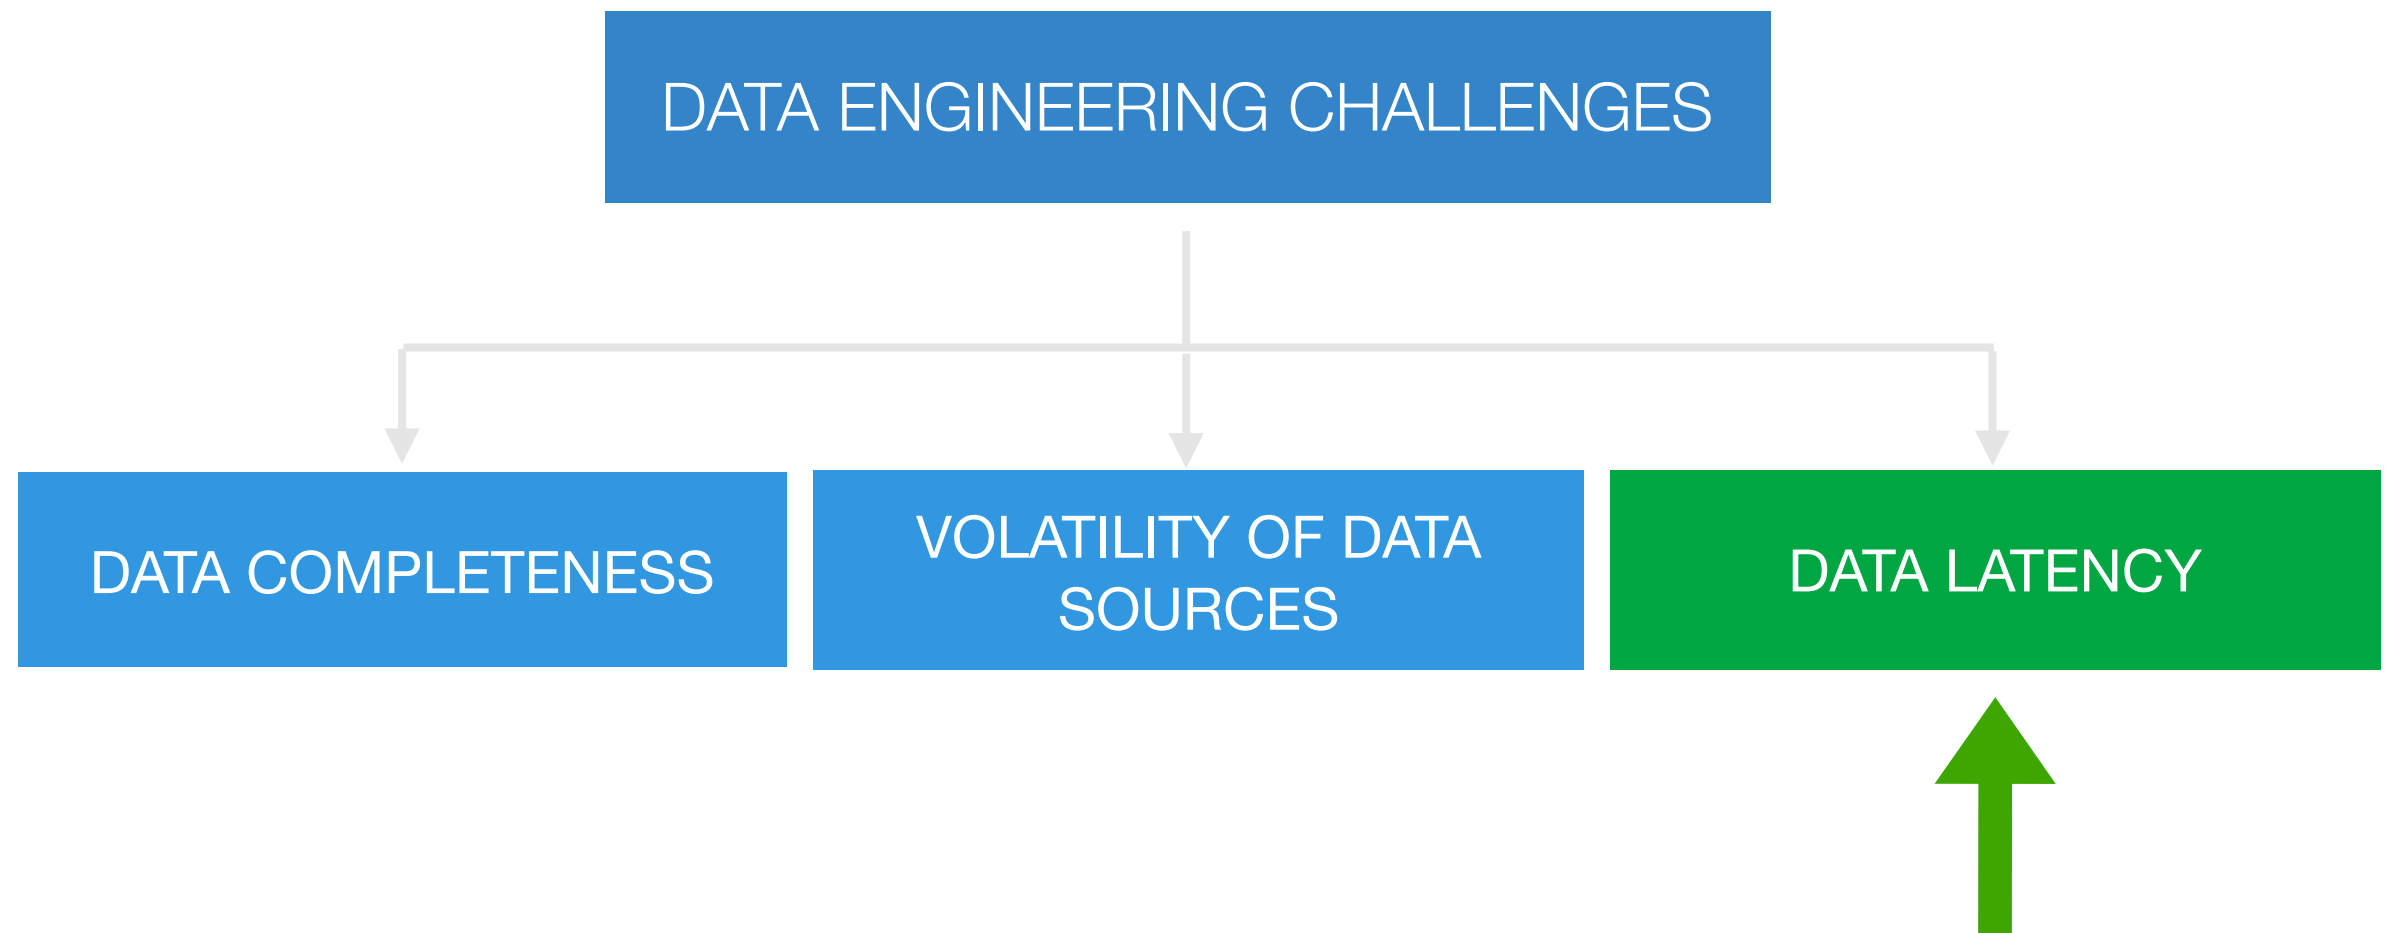

2013/14 What is causing the **delay** ?

- Accumulating WIP due to cost of batch execution
- Test data not representative of real data
- Cost of human error and reprocessing
- NoSQL No Response

2013/14 Issue Tree

2013/14 Performance, coupling and synchronisation

2013/14 Challenges - Performance

19:00 23:00 01:00 05:00 08:00

2013/14 Challenges - Performance

19:00 23:00 01:00 05:00 08:00

2013/14 Challenges - Performance

19:00 23:00 01:00 05:00 08:00

2013/14 Actions - Create a vision

1

Data Definitions, MDM
and Governance

2

Operational Analytics

3

Tactical Data
Warehouse

4

Visualisation and
Tools

5

Next Generation
Infrastructure

6

Interfaces to Data

7

Leverage CRM

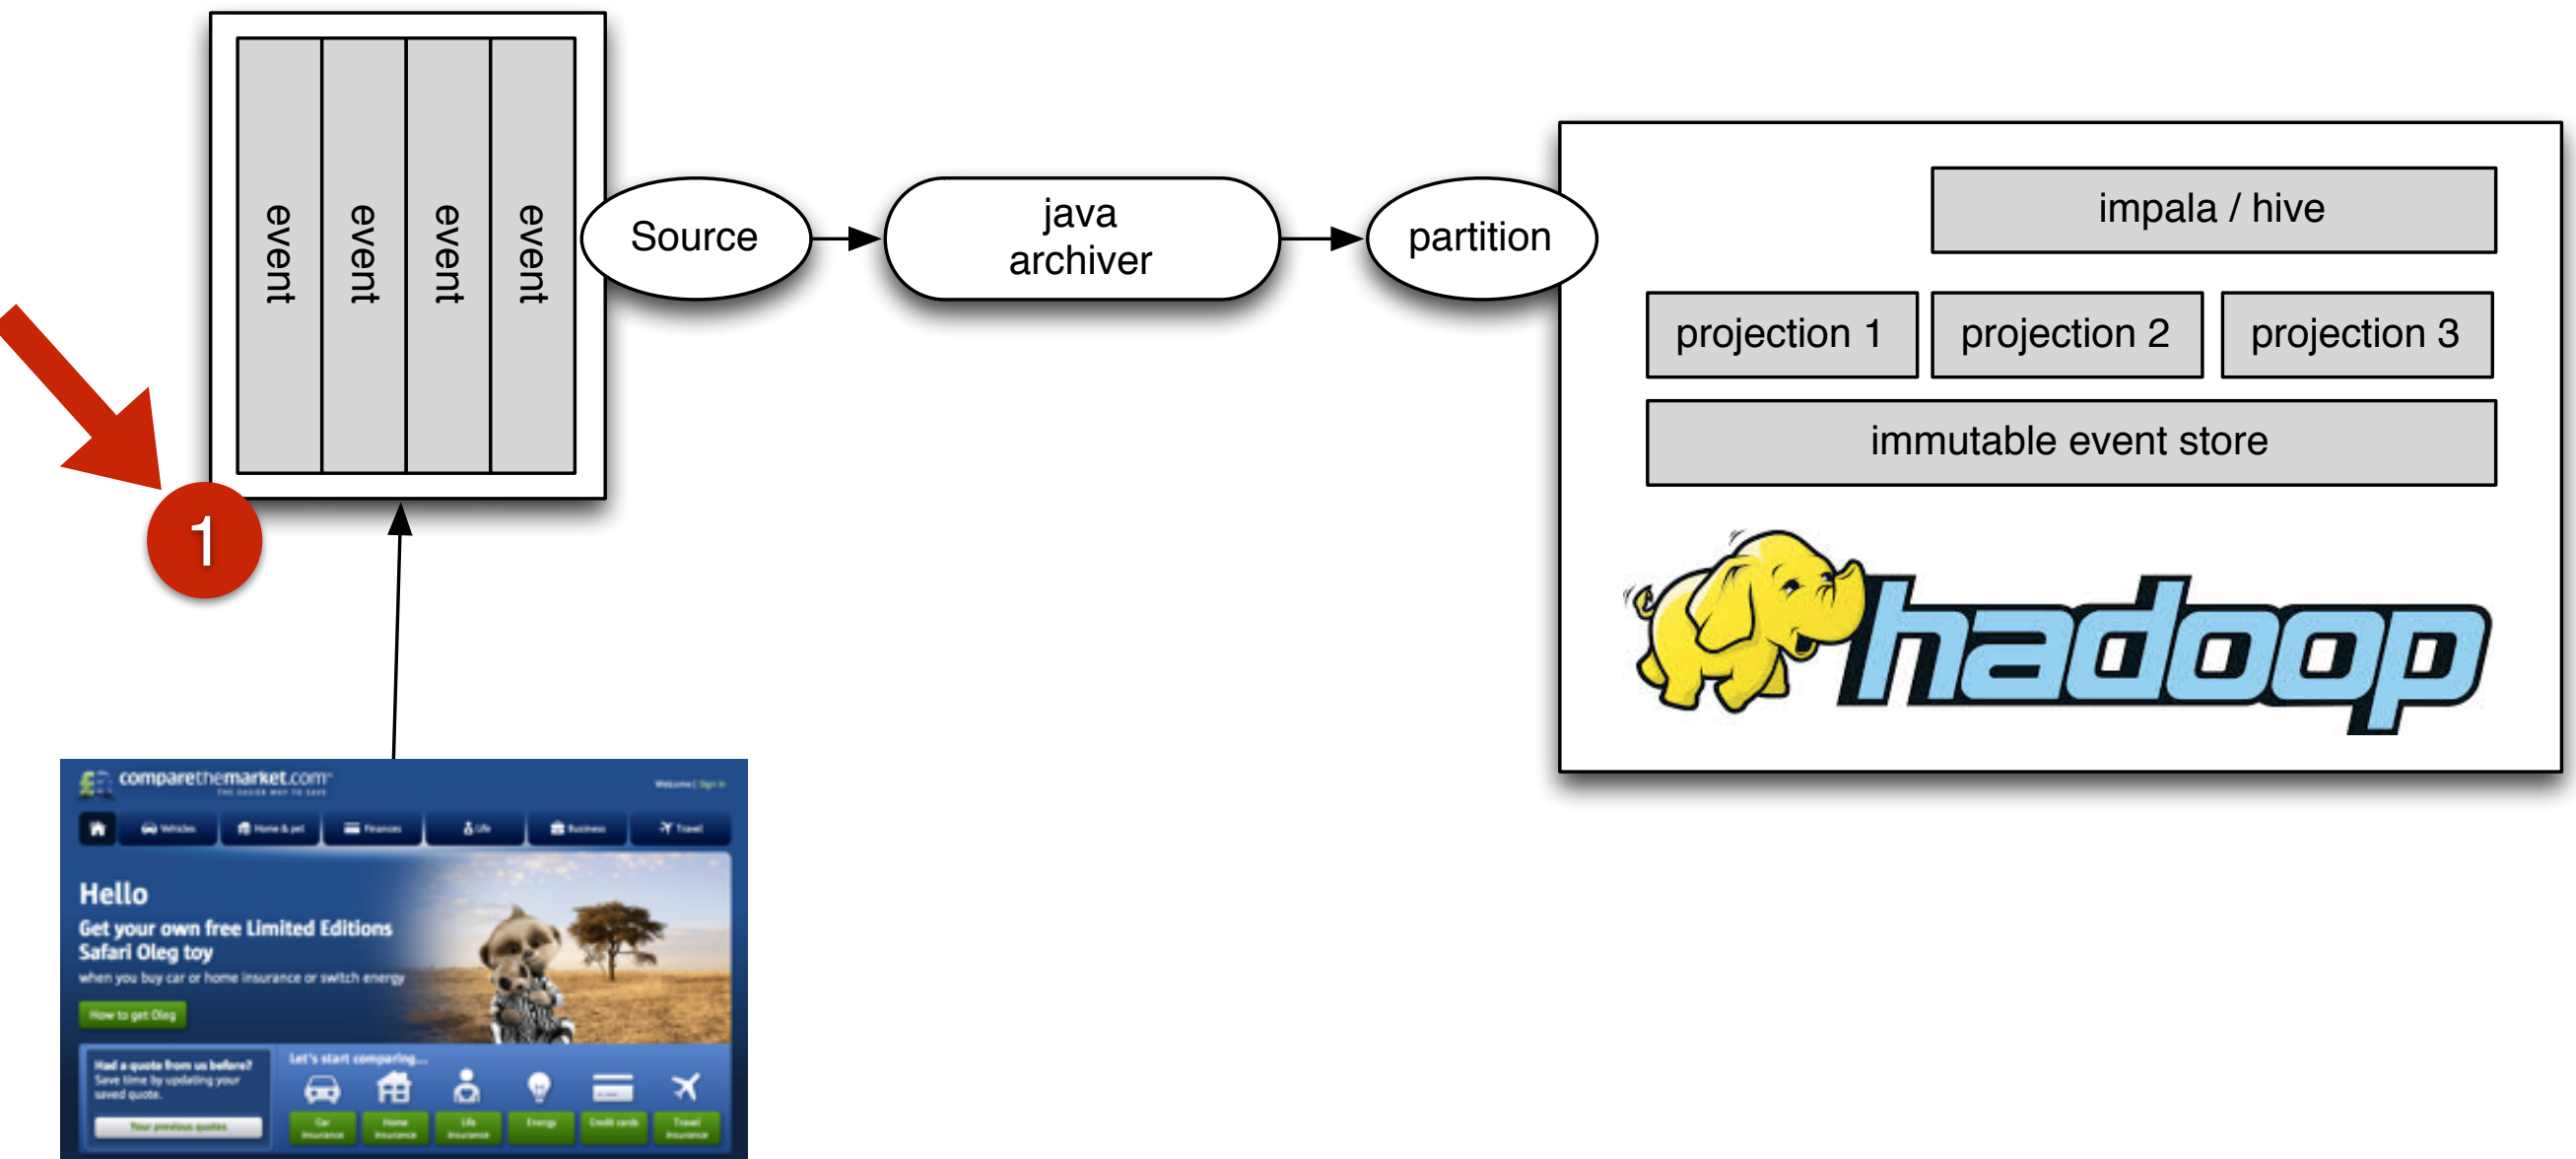

8

Real-Time Decisions
and Personalisation

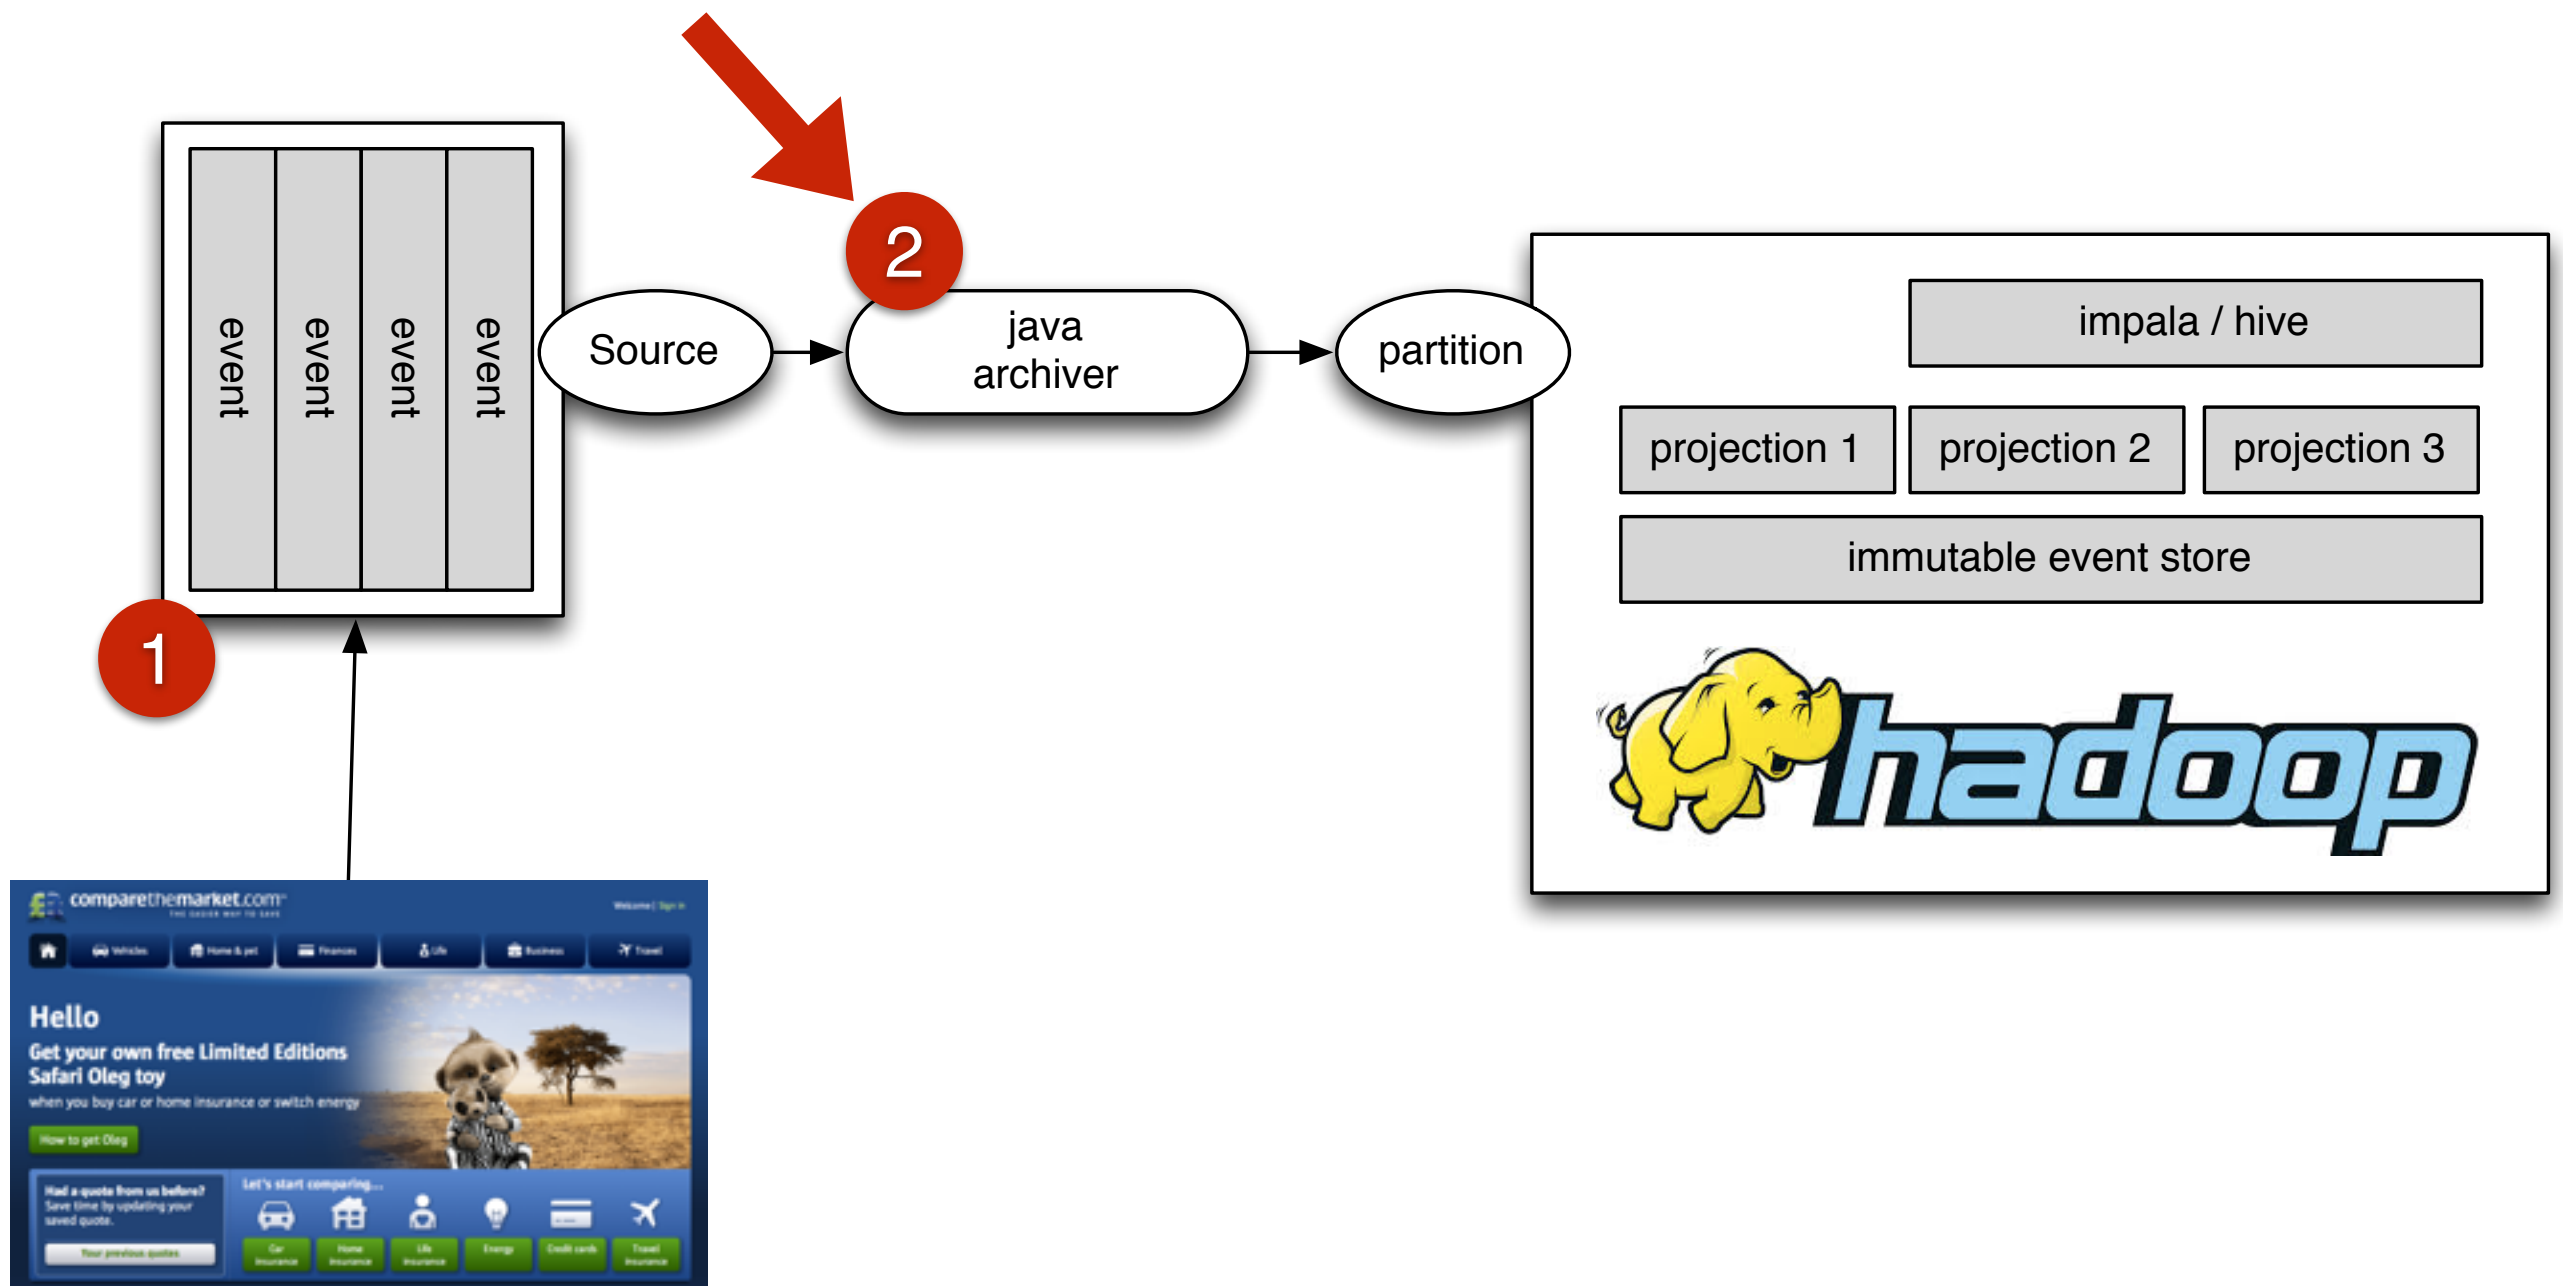

- Immutable raw data (events) and refine
- Real data where possible
- Schema later, but it is still important
- Loosely coupled pipelines
- Increase data velocity

Actions

PoC 2

PoC 3

PoC 3

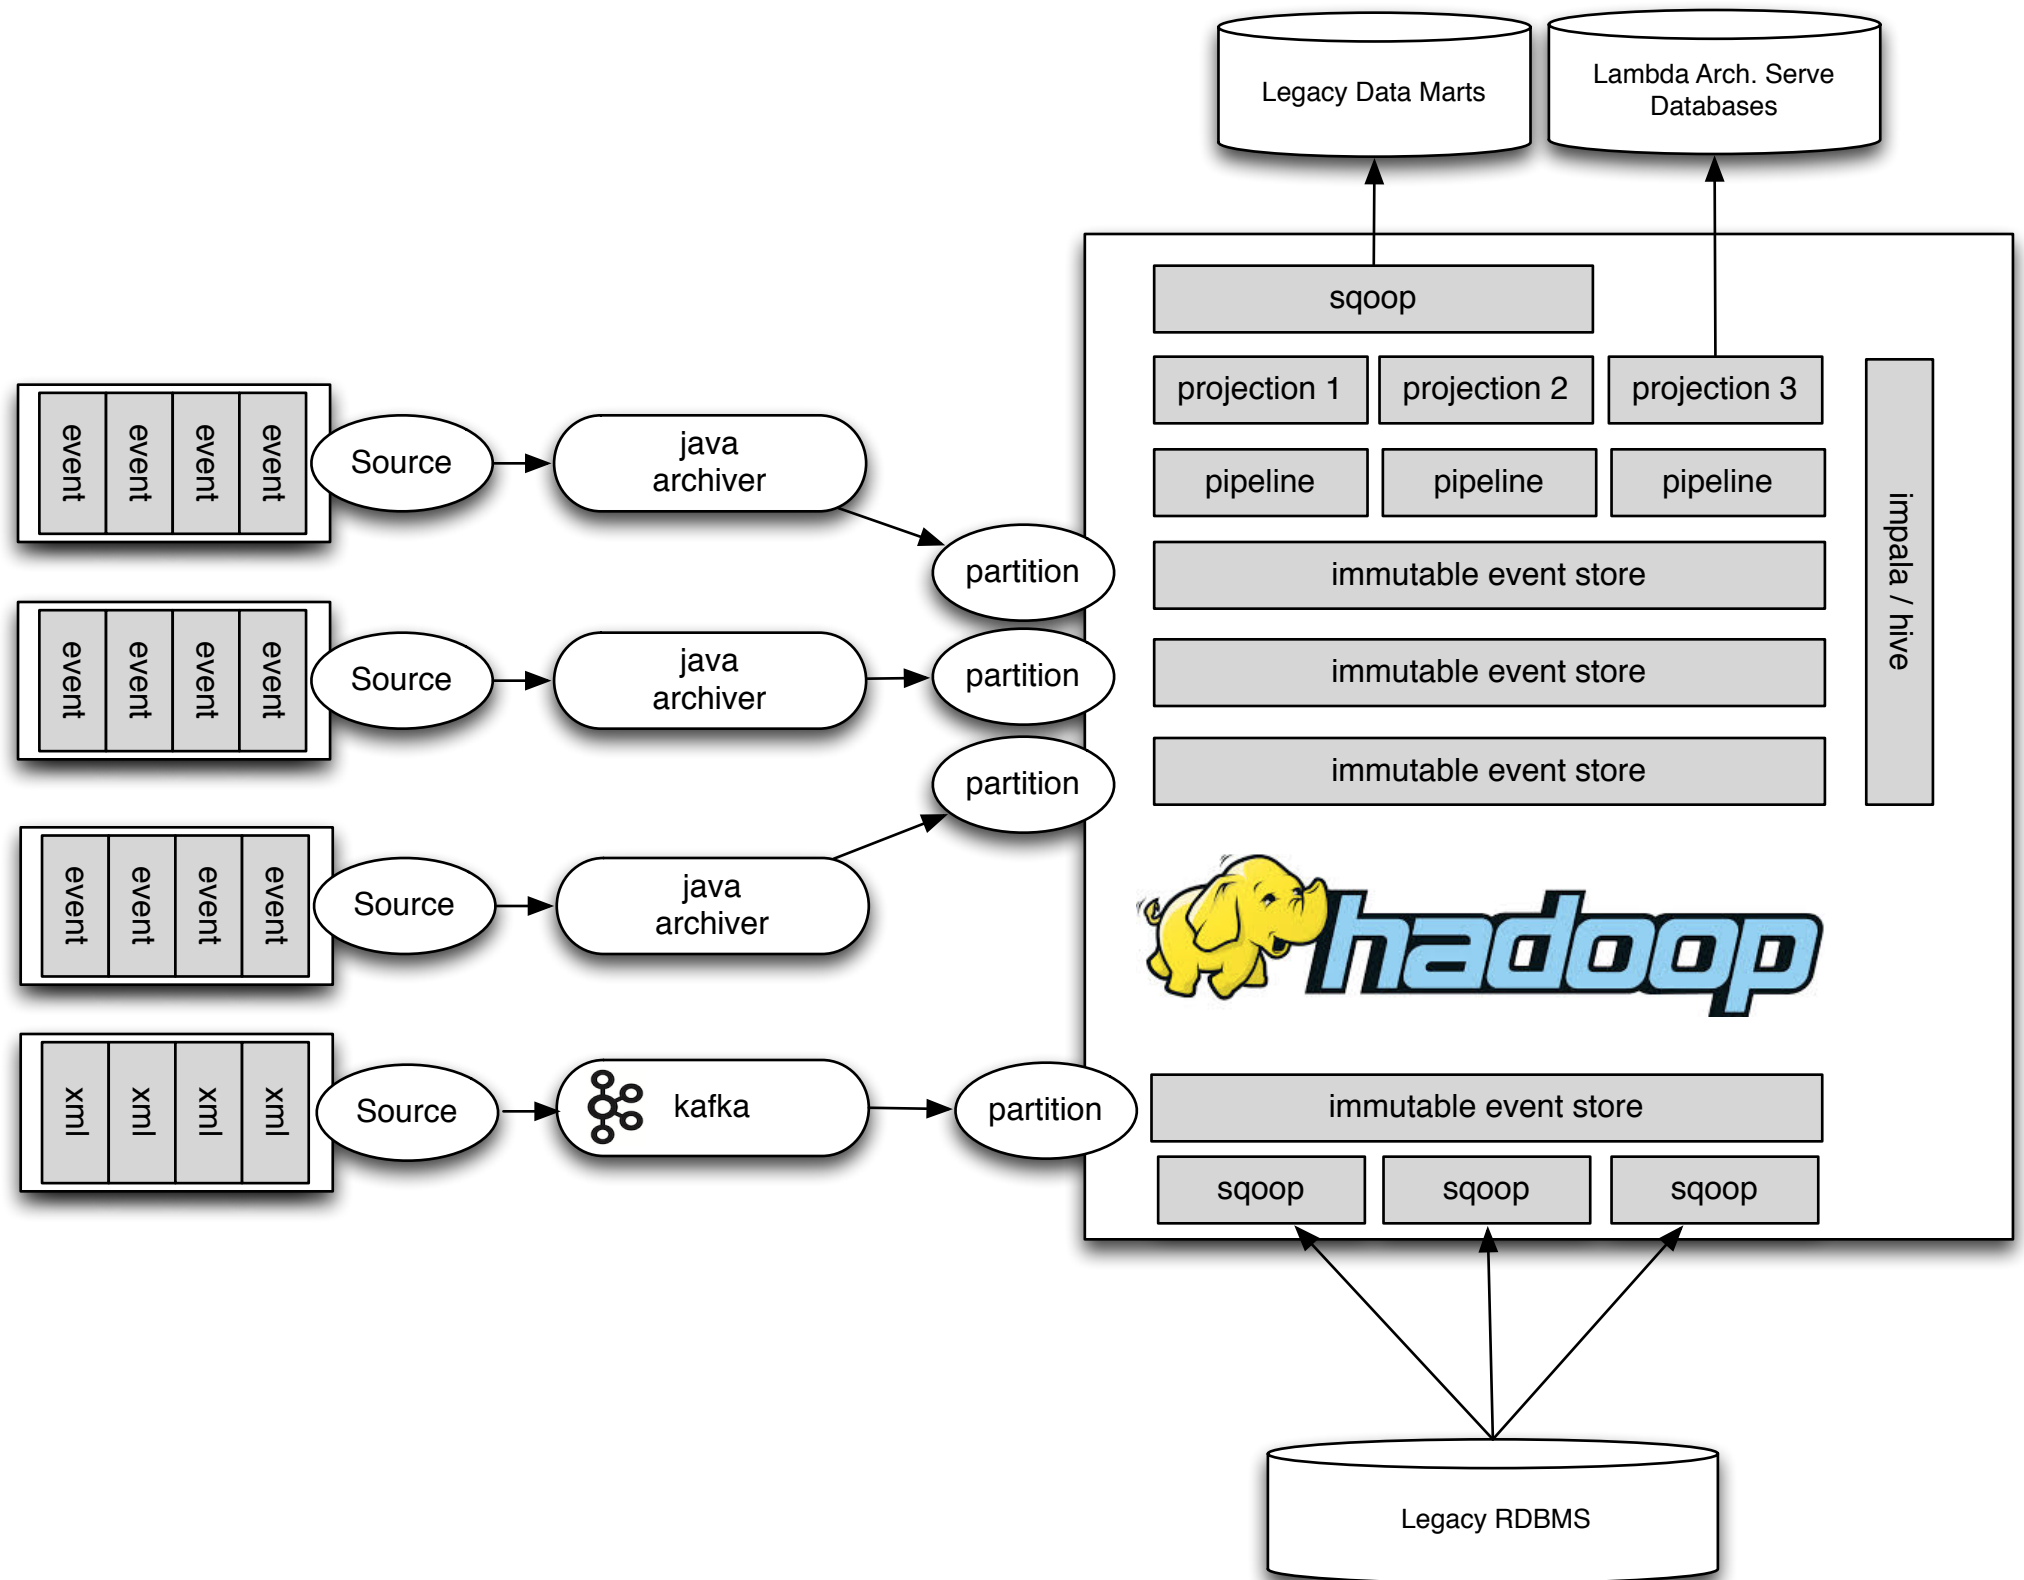

PoC 3

2013/14 Urgency Increases

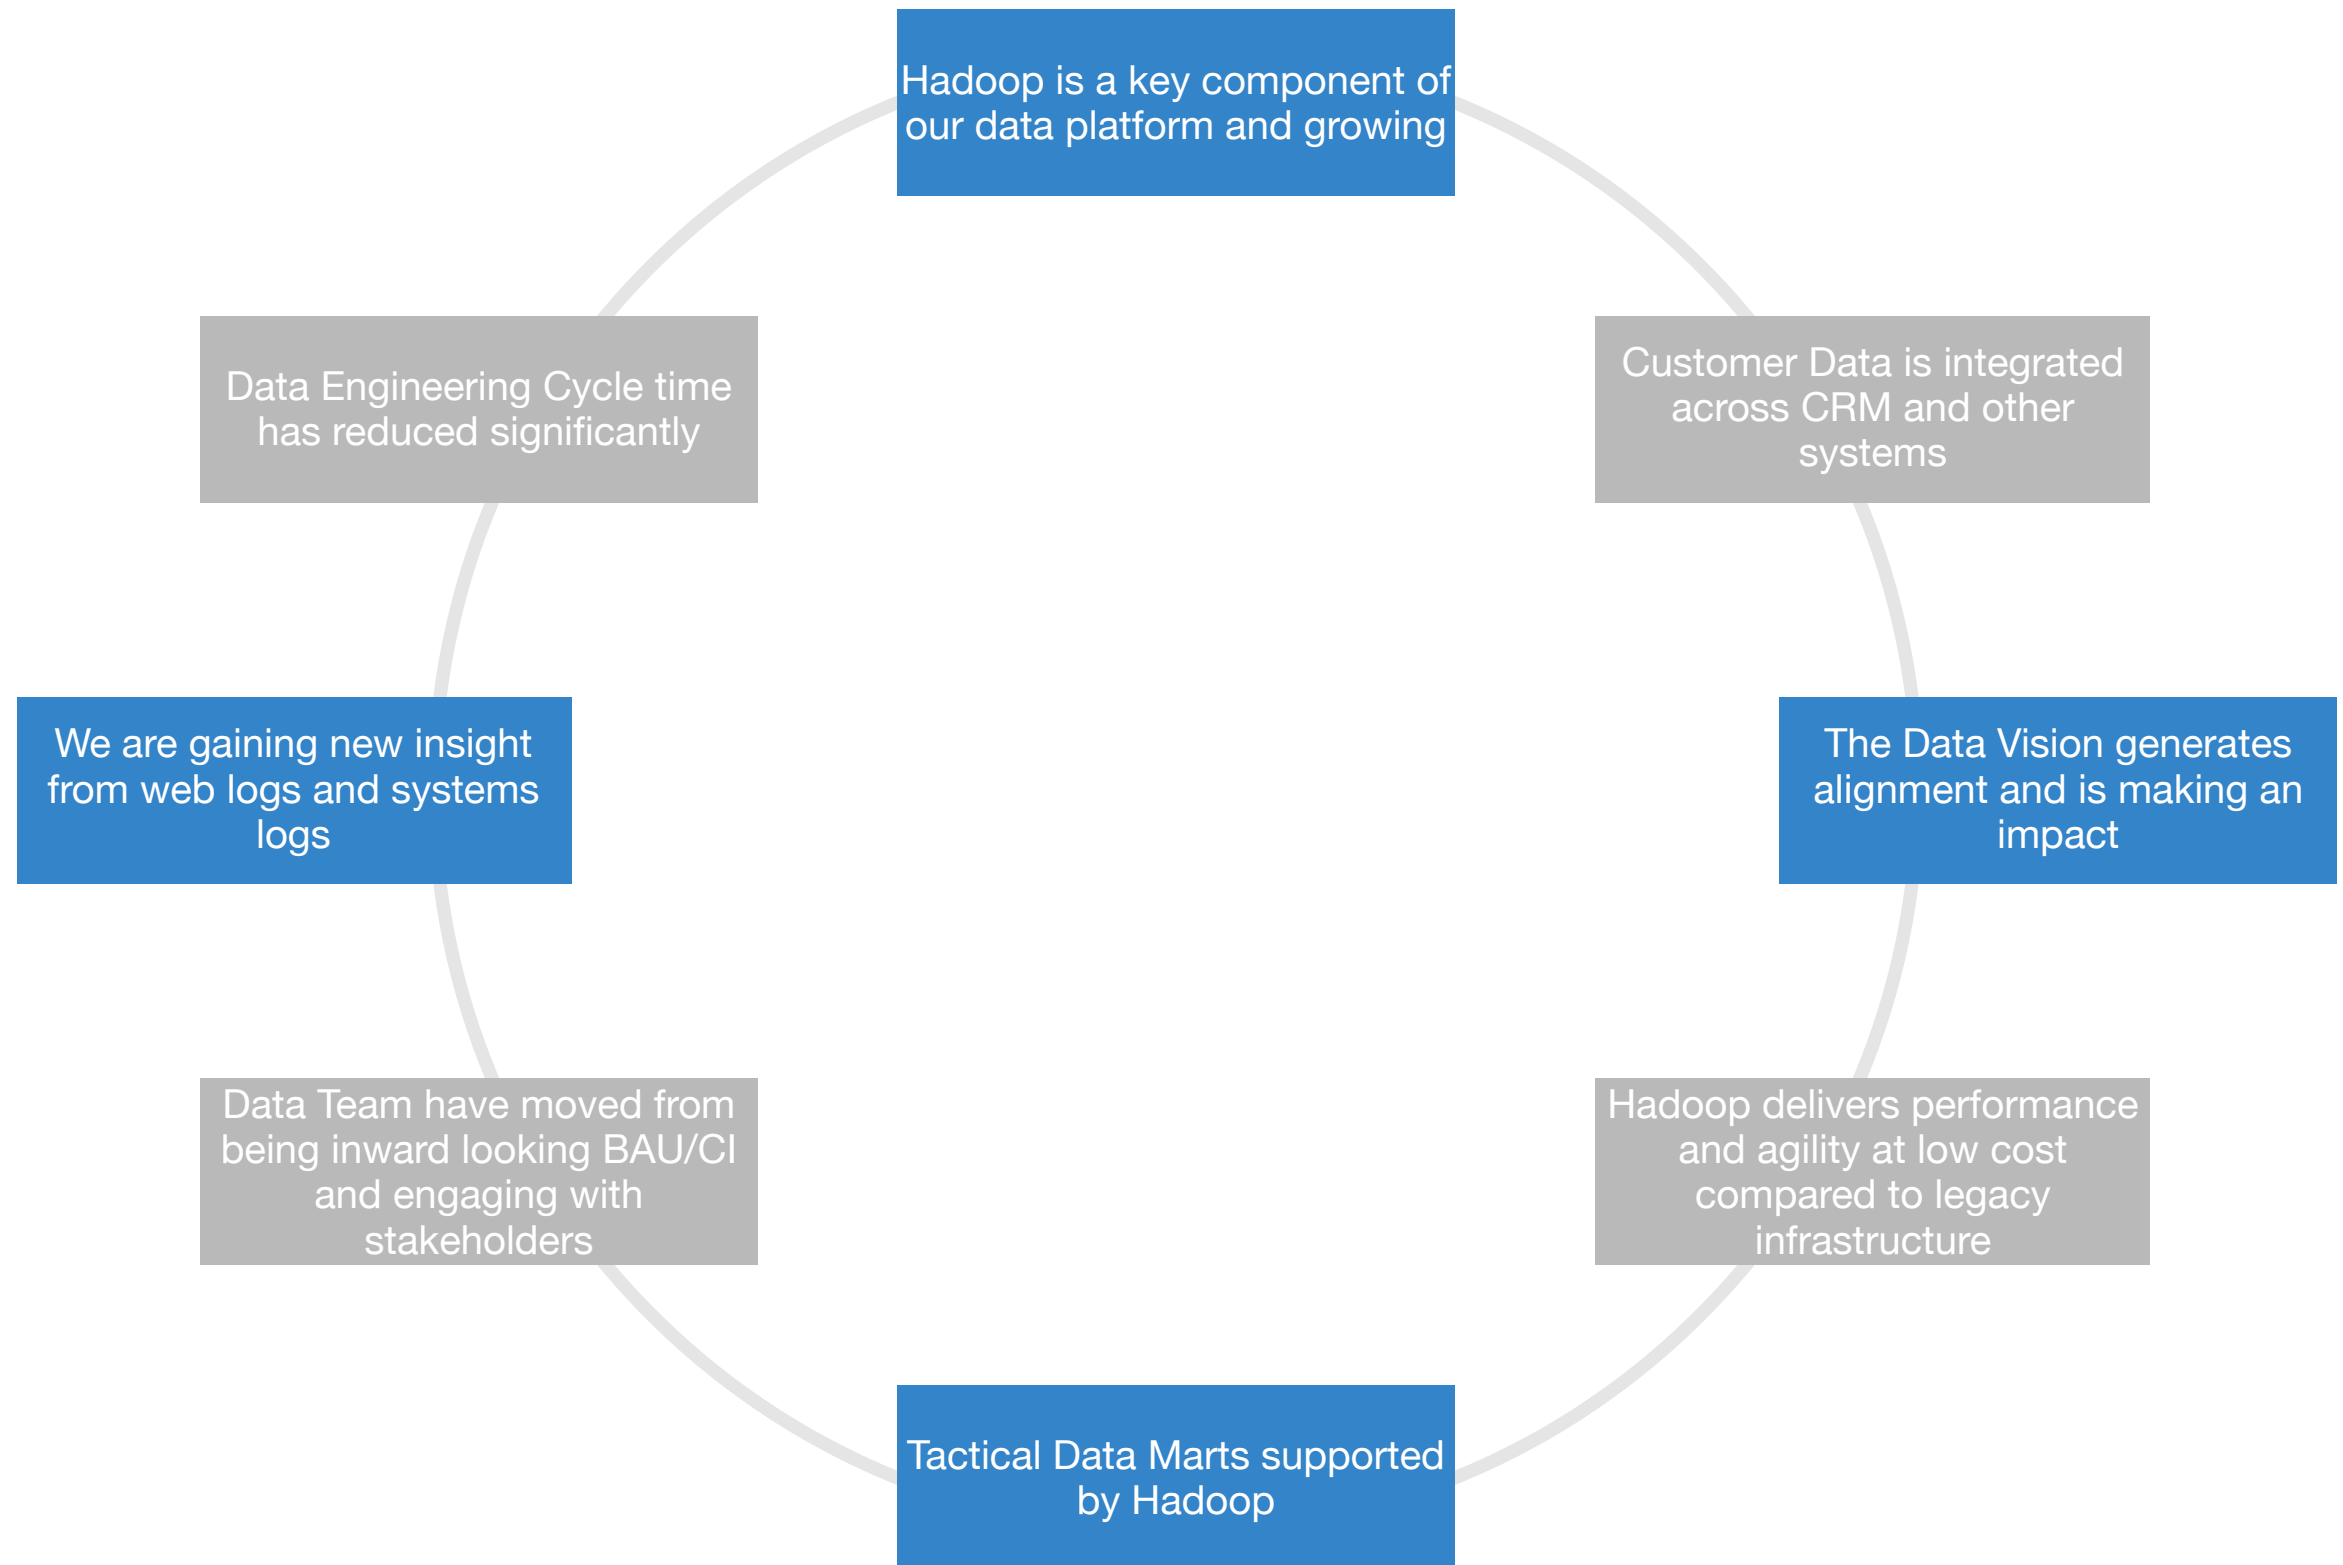

- Tipping Point in Demand vs. Supply
- Procurement Process
- Contracted with Cloudera
- Statement of Work
- Onsite Engagement

Production 2

Outcomes

2014 Outcomes

- Effort into understanding the issues
- Created alignment with a vision for change
- Challenged convention
- Engaged with the problem at range
- Communicated that vision to stakeholders
- Communicated the sense of urgency
- Built a guiding coalition of powerful stakeholders
- Demonstrated quick wins - the solution would work and generated more change

Future Challenges

Future Challenges - Supply Side

- Alignment
- Engineering Capability
- Technology Enablers
- Platform Stability and Data Availability
- Coping with Web Tier Agility

Future Challenges - Demand Side Capability

- Data Team Skills and Structure
- Benefits from Platform Investment
- Reproducible Research
- Leveraging Web Tier Agility
- Tell a story with data and visualisation

Future Challenges - Data Innovation

- Continuing Evolution of Data Strategy
- Open Data Experimentation
- Value from Partnerships and Social
- Trusting Automated Decisions
- Designing Cross Tier Data Products

Thank you
