The drinkers guide to PostgreSQL

Aaron Thul
I am just here to drink and don't really know anything

Do we need to

- Application developers

- Managers

- Our own mistakes

- Do we really need a reason???

Someone told you Pg was hard to install

Someone told you Pg was hard to install

DELETE FROM <tbl>

DELETE FROM <tbl>

Someone is having a pg_hba.conf problem

Someone is having a pg_hba.conf problem

Someone bloated the bejeebers out of the database

Someone bloated the bejeebers out of the database

Management forced an iSCSI solution

Management forced an iSCSI solution

Tom Lane rejected your patch

Tom Lane rejected your patch

Someone Shutdown/ killed production

Someone Shutdown/ killed production

You realize your DB has 100,000 tables

You realize your DB has 100,000 tables

You tried to use Pg_Upgrade

You tried to use Pg_Upgrade

You had to use MySQL

You had to use MySQL

Exceptions

Shawarma

Lightening Talk

Lightening Talk

- One bottle of Scotch

Thank you
