Traditional Enterprise with Network Perimeter

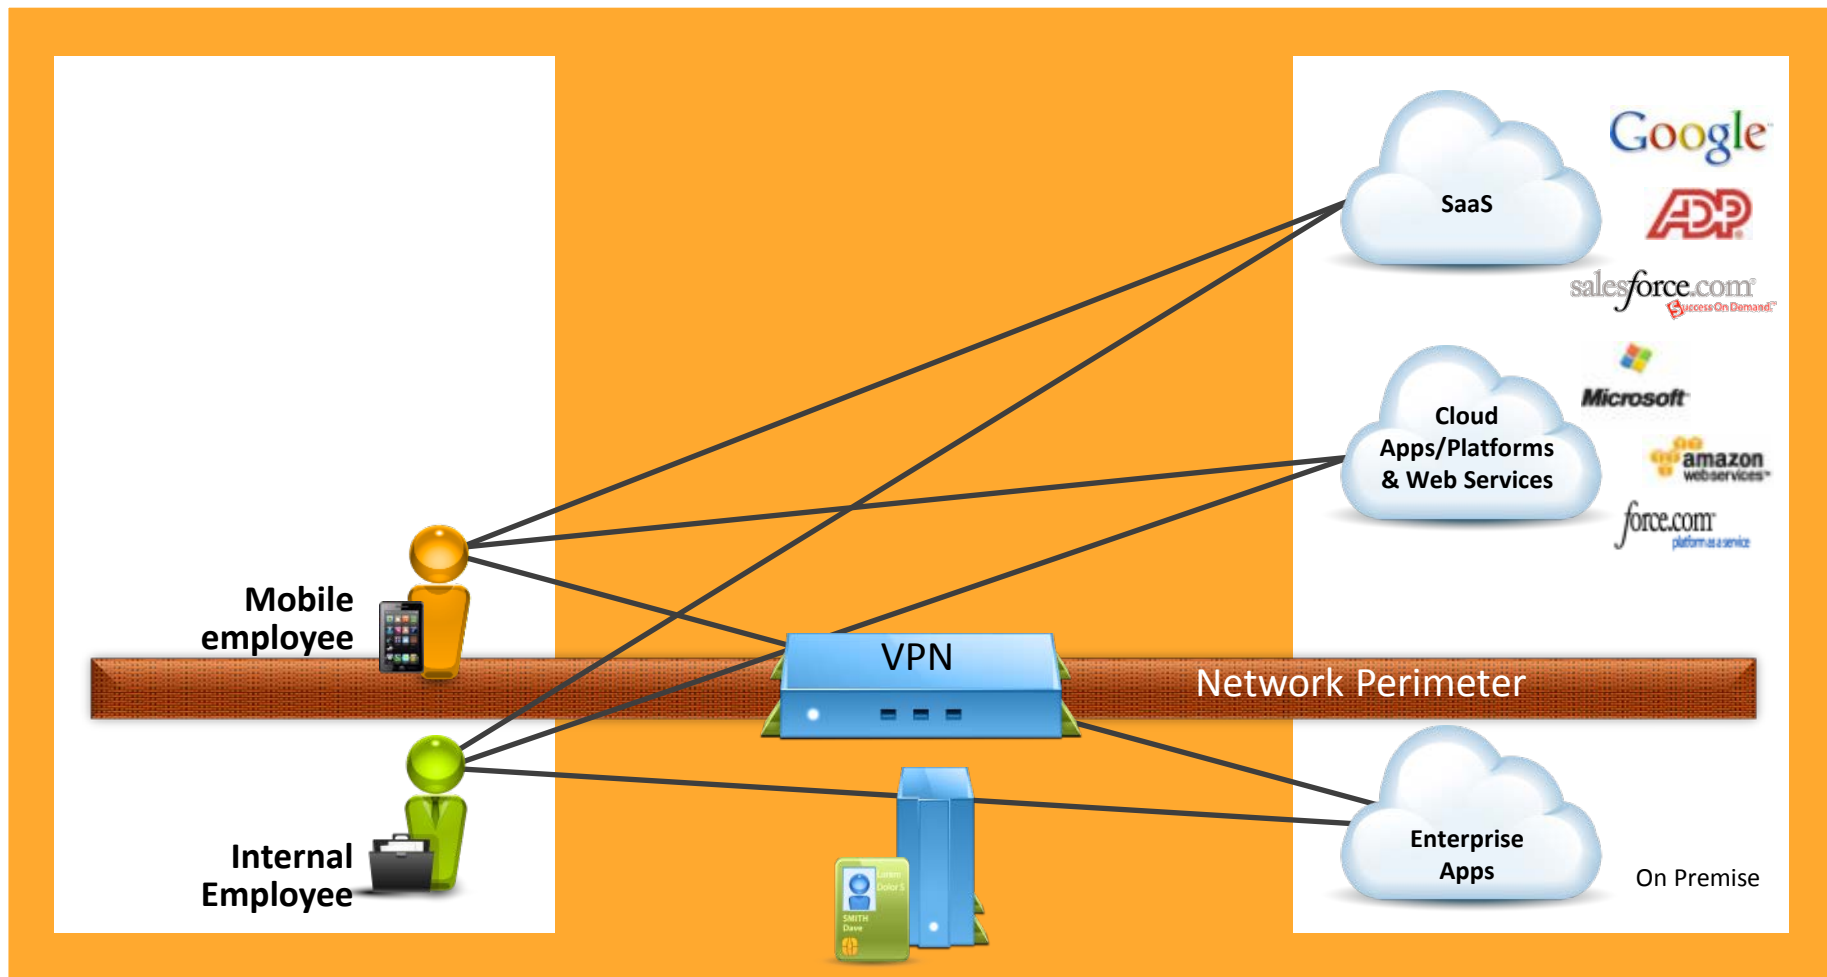

Traditional Enterprise with Network Perimeter

...and remote employees

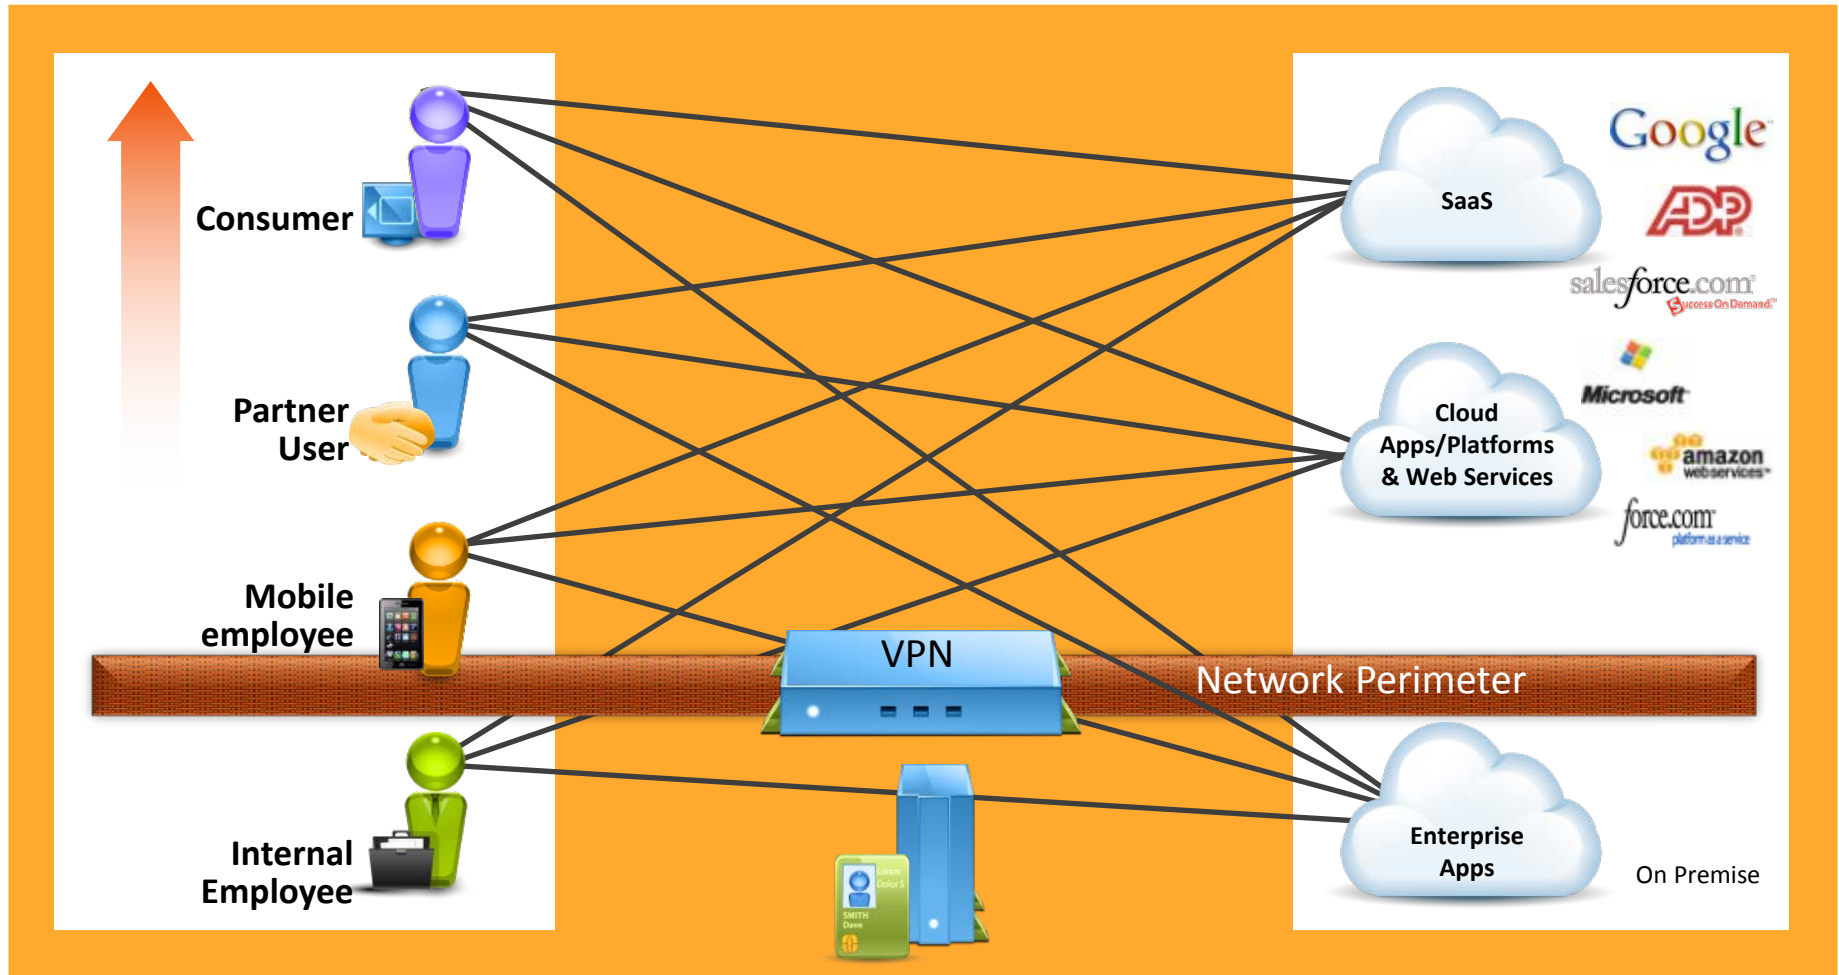

Traditional Enterprise with Network Perimeter

...and remote employees ...and cloud applications

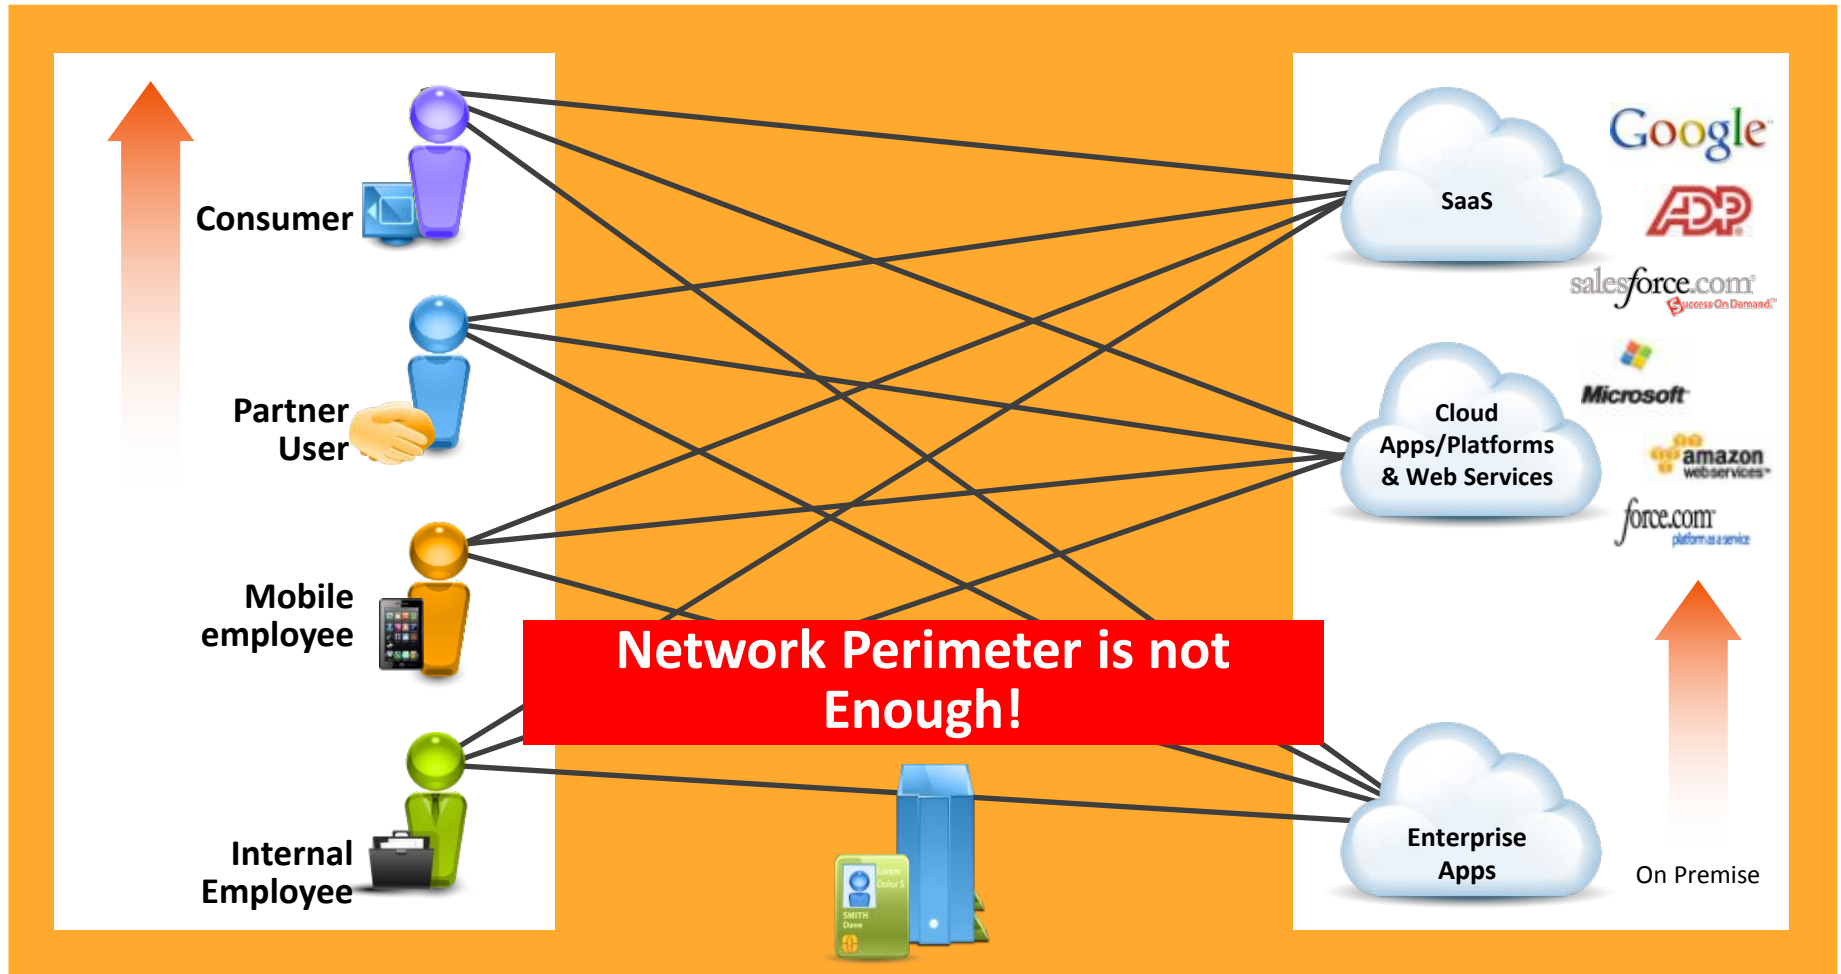

Traditional Enterprise with Network Perimeter

...and remote employees ...and cloud applications ...and external users

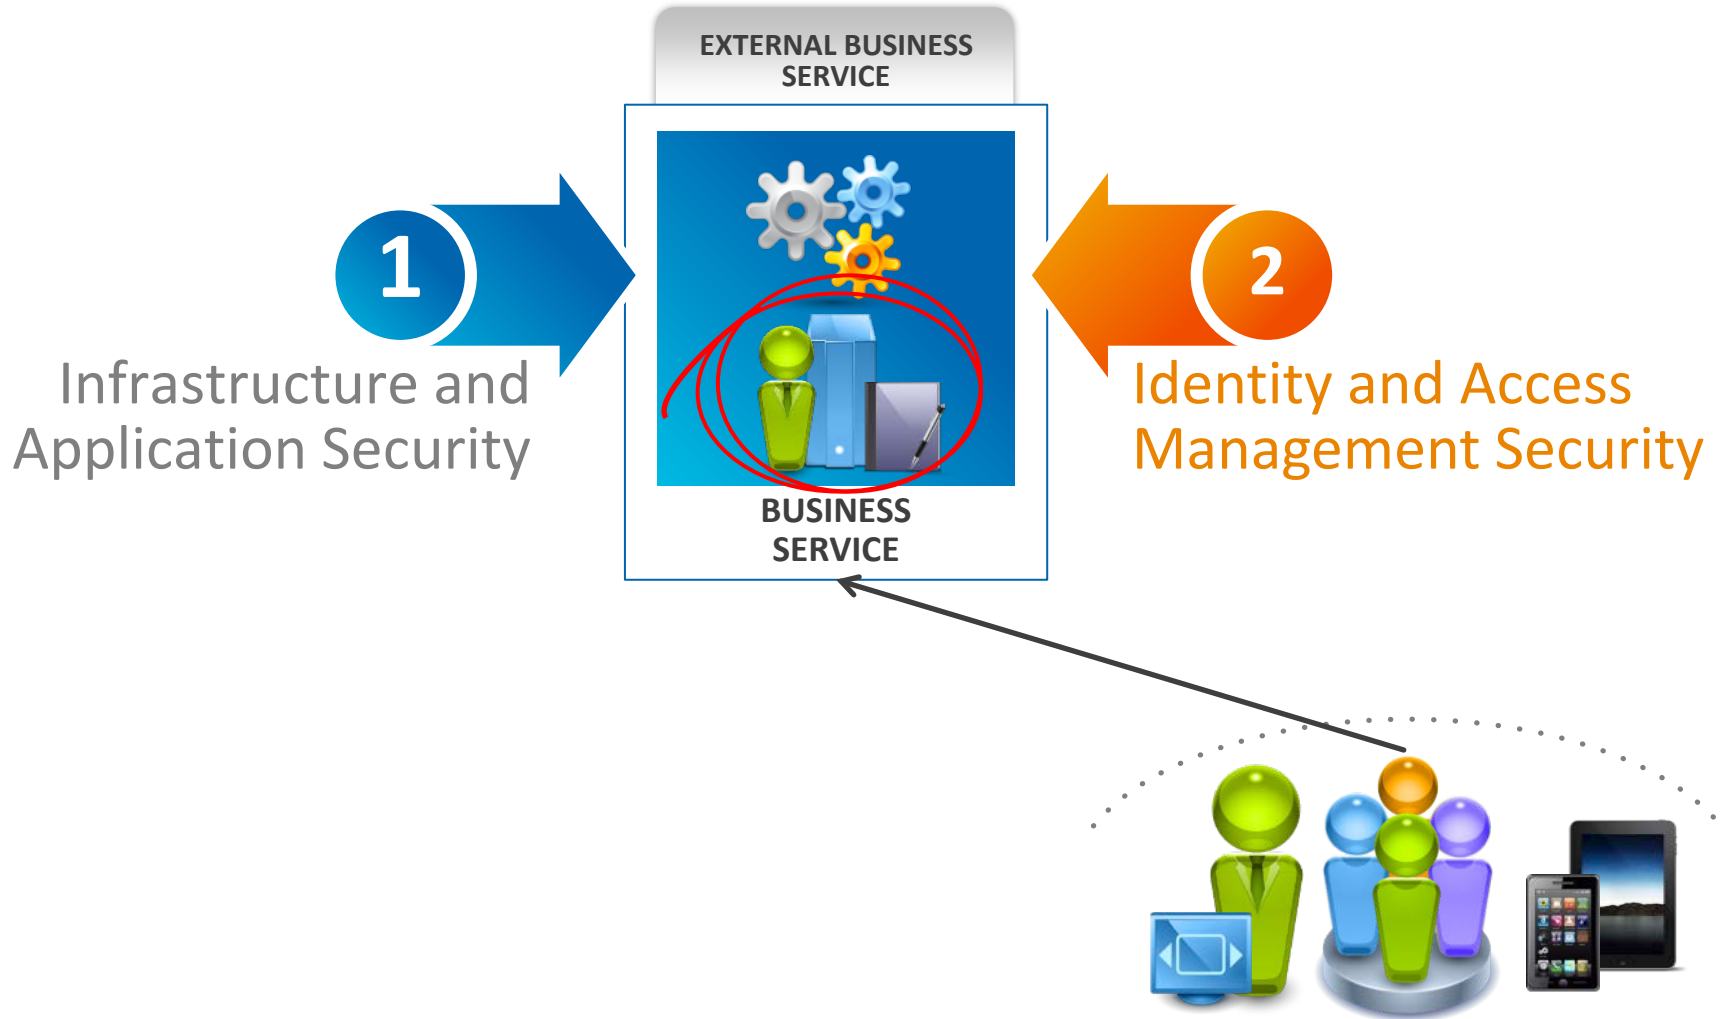

Network Perimeter is Not Enough

...and remote employees ...and cloud applications ...and external users

Access and Infrastructure Security are Separate

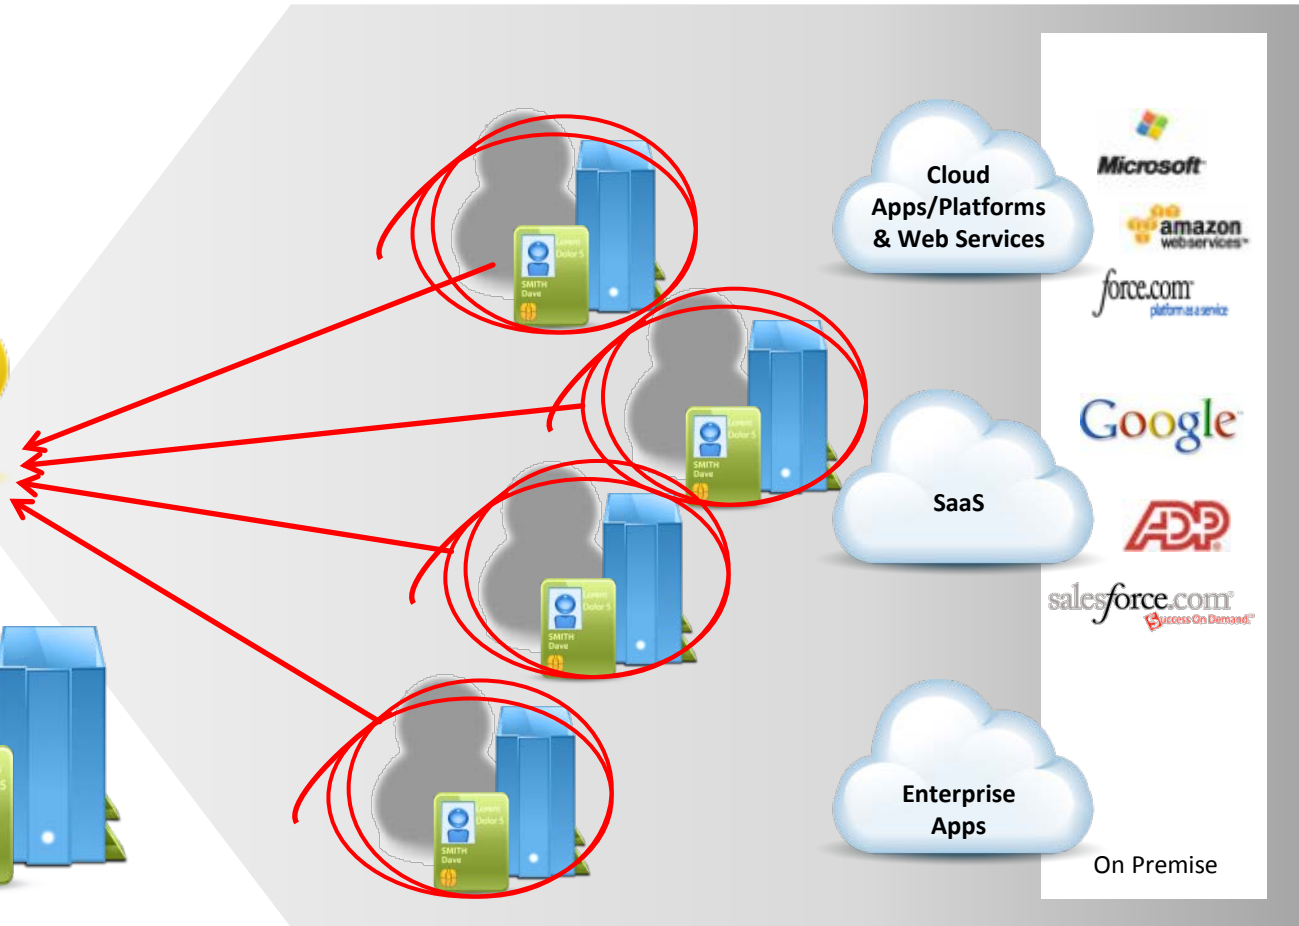

IAM Must Remain in Our Control

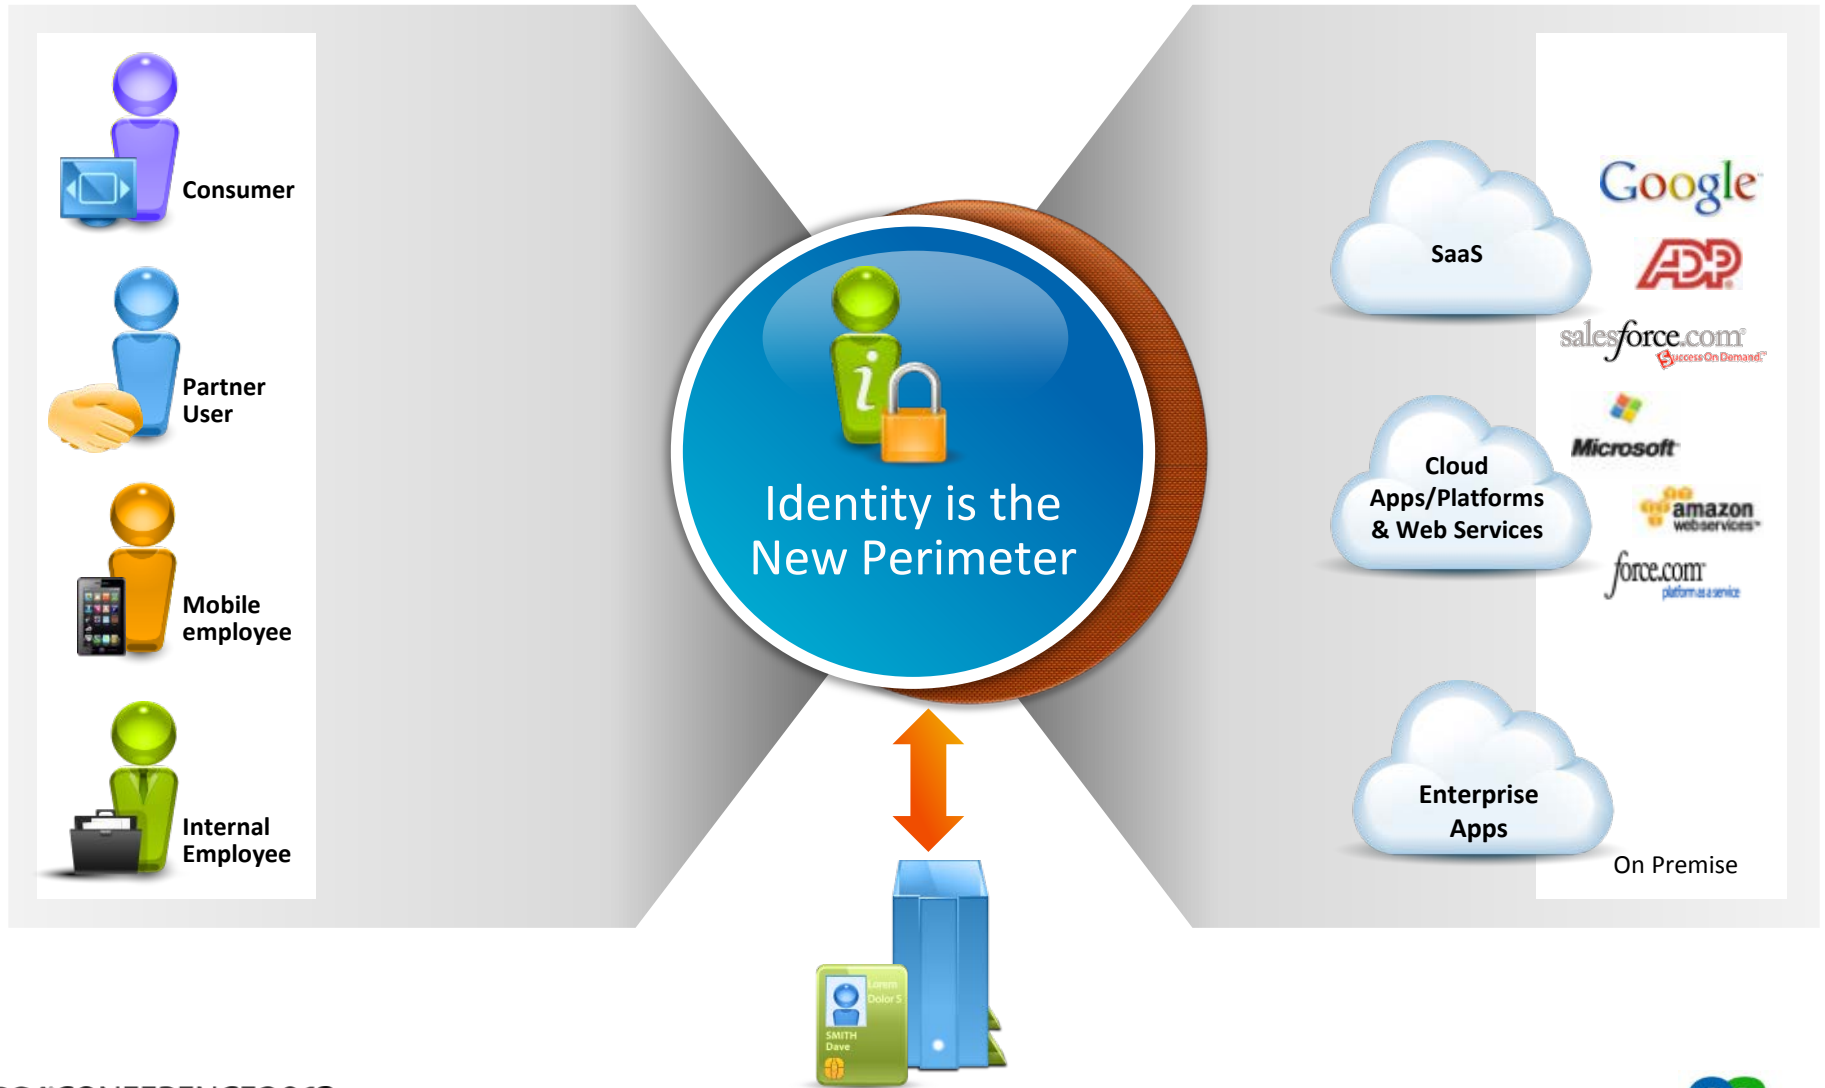

Need to own:

- Access Request
- Authentication
- Authorization
- Auditing
- (de) Provisioning

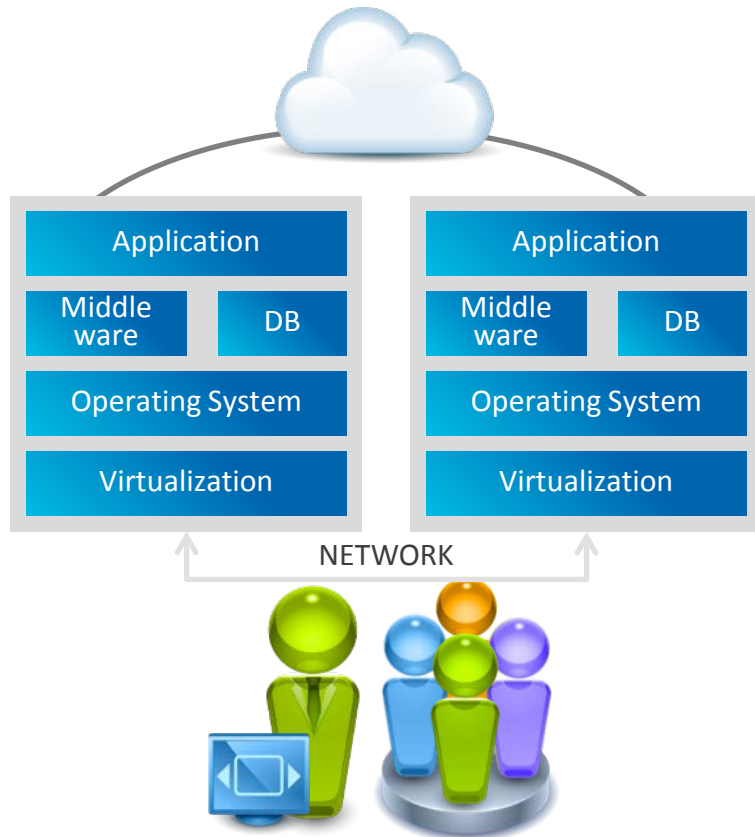

Identity is the New Perimeter

Security Function Needs to Evolve

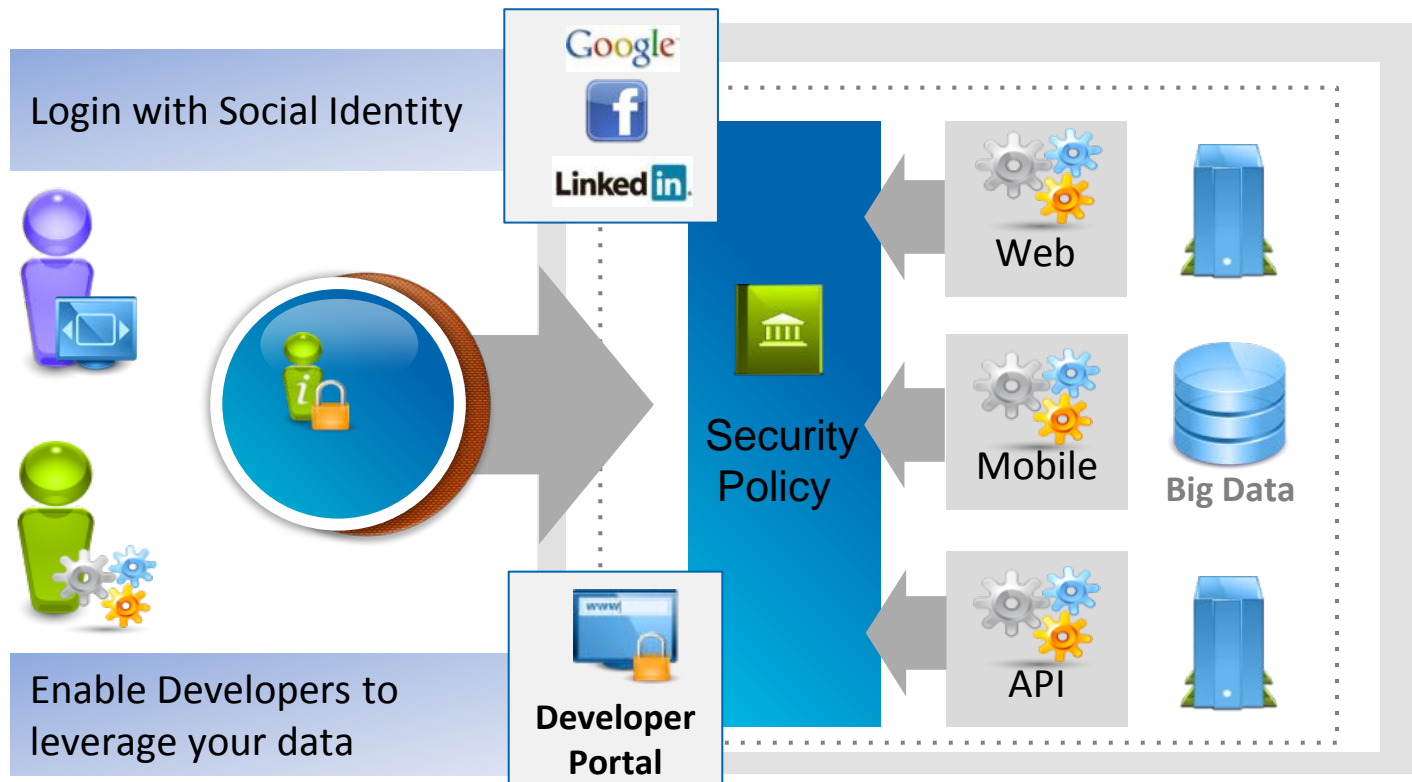

Infrastructure Build & Secure

Business Service Brokerage

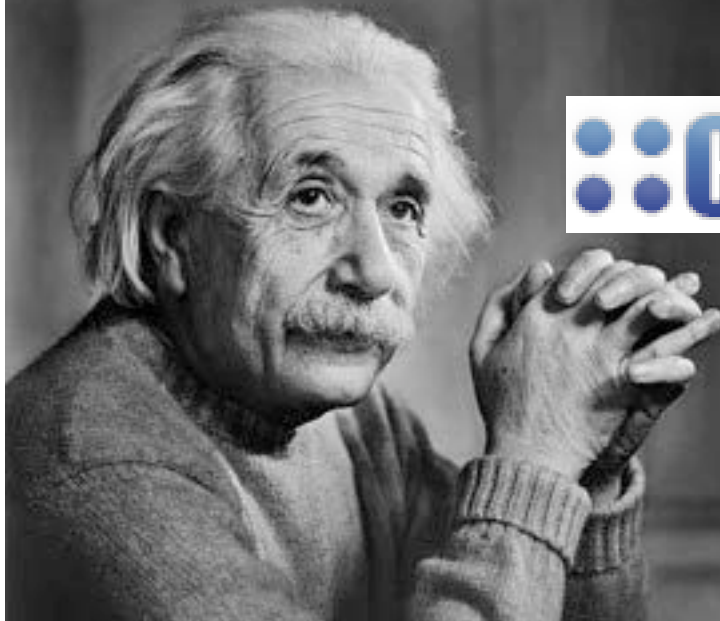

Security Can Drive the Business More Than Ever

TOP 5 LESSONS

If you can't explain it **simply**, you don't understand it well enough.

– Albert Einstein

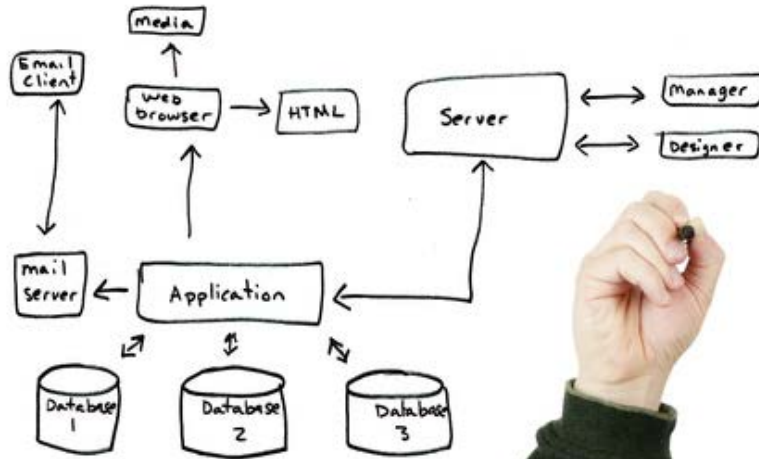

CSISO EXECUTIVE NETWORK

Get Out From Behind the Desk

Report ONLY What Executives Want to Hear

Be Adaptable

Drill Baby, Drill

Stay Relevant!
