Managing Director, The Chertoff Group

# Leading Questions

- ◆ Has a free market approach to cyber security been effective?
- ◆ Is some kind of cyber security regulation needed?
  - ◆ If not, why not?
  - ◆ If so, why and what kind of regulations should be put in place?
- ◆ Will the NIST/DHS Framework become a de-facto regulation?
  - ◆ If so, is that good or bad?
- ◆ What would it take for you to change your mind on this topic?
