GUEST ACCESS

SECURE REMOTE
ACCESS SSL VPN
DEVICE AND/OR
APPLICATION TO
ENTERPRISE

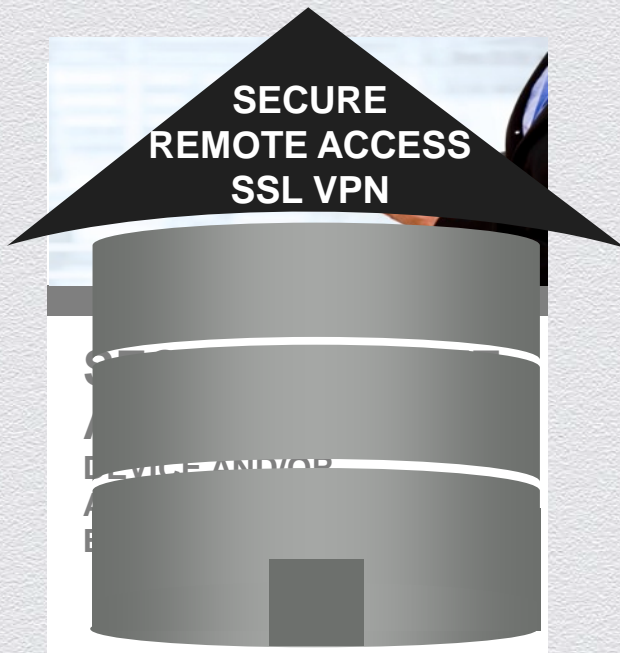

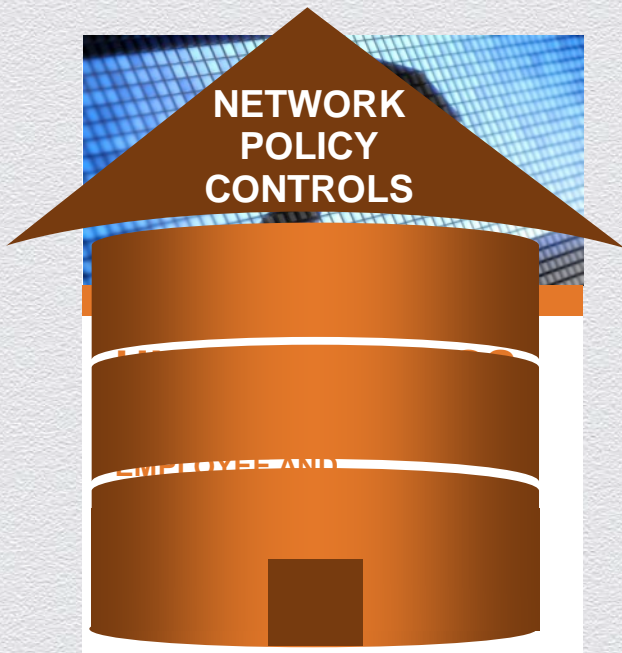

MOBILE DEVICE MANAGEMENT

TABLETS
PHONES
AND PCs

In the office from anywhere....

Multi-Vendor Challenge

Silos of multi-vendor functionality and management

**Reality: Complex experiences for
IT and end users**

RSACONFERENCE2014

FEBRUARY 24 – 28 | MOSCONE CENTER | SAN FRANCISCO

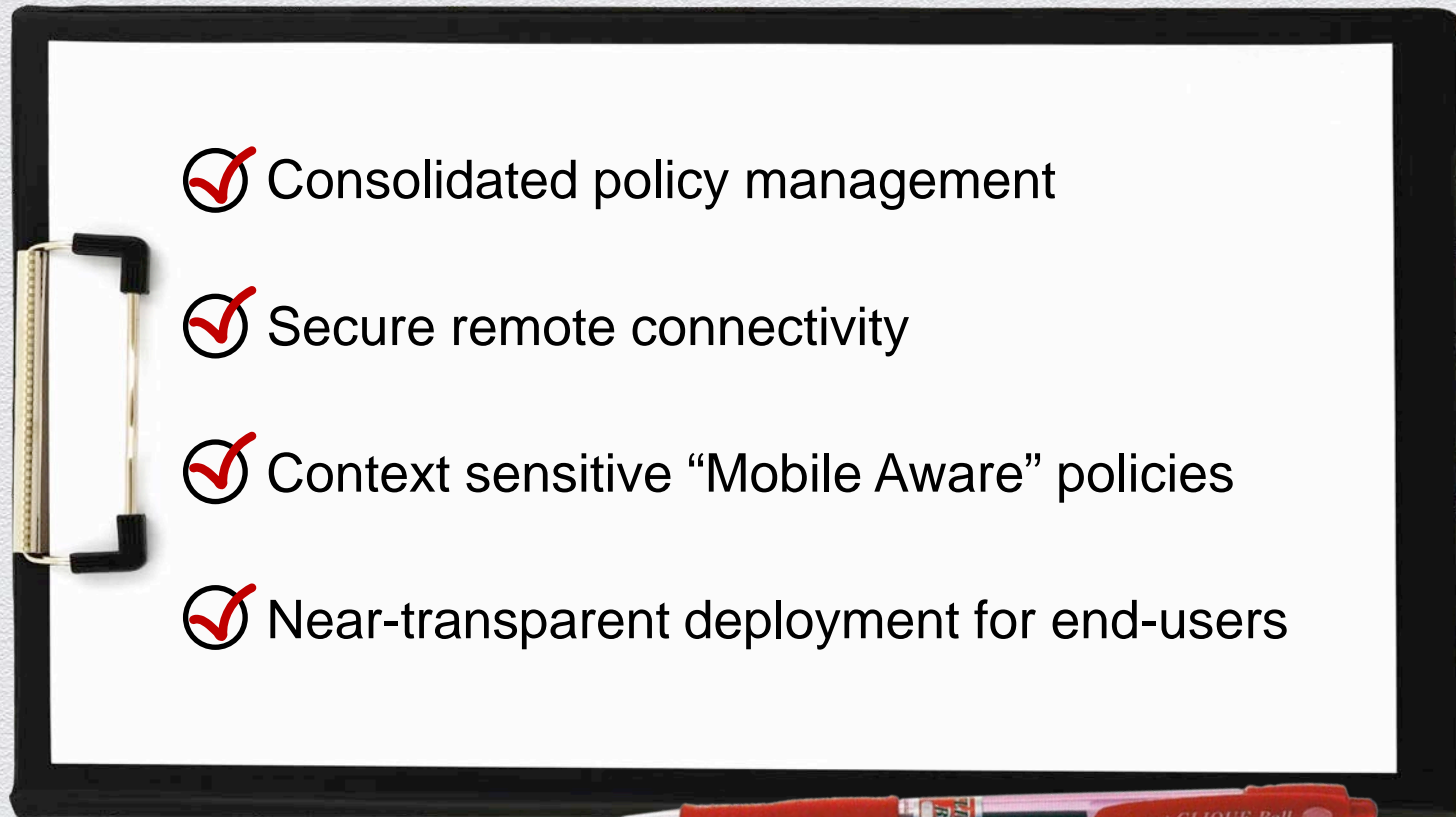

Case Study: Multi-national Enterprise

Multinational Enterprise

Critical BYOD Operational Requirements

- ✓ Consolidated policy management
- ✓ Secure remote connectivity
- ✓ Context sensitive “Mobile Aware” policies
- ✓ Near-transparent deployment for end-users

Chosen Solution

Access Control

Junos Pulse Policy Secure

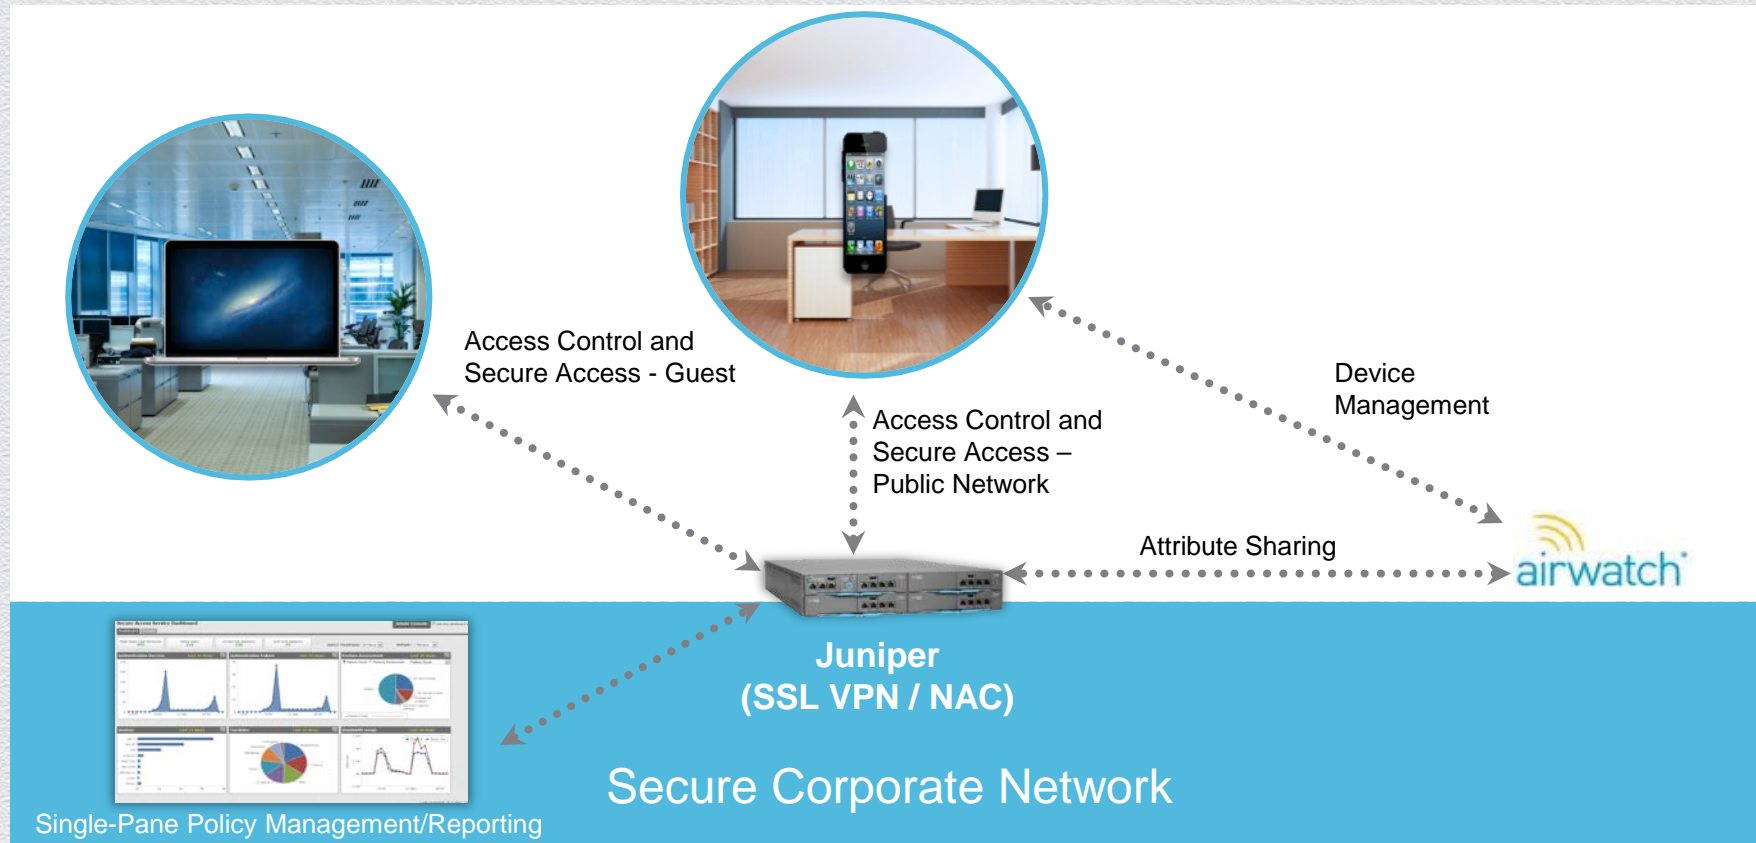

Remote Access

Junos Pulse Connect Secure

MDM

AirWatch

Better BYOD Architecture and Data Flow

Simple User Experience

Single Client for all platforms

No Touch Deployment

Leverages any available connectivity

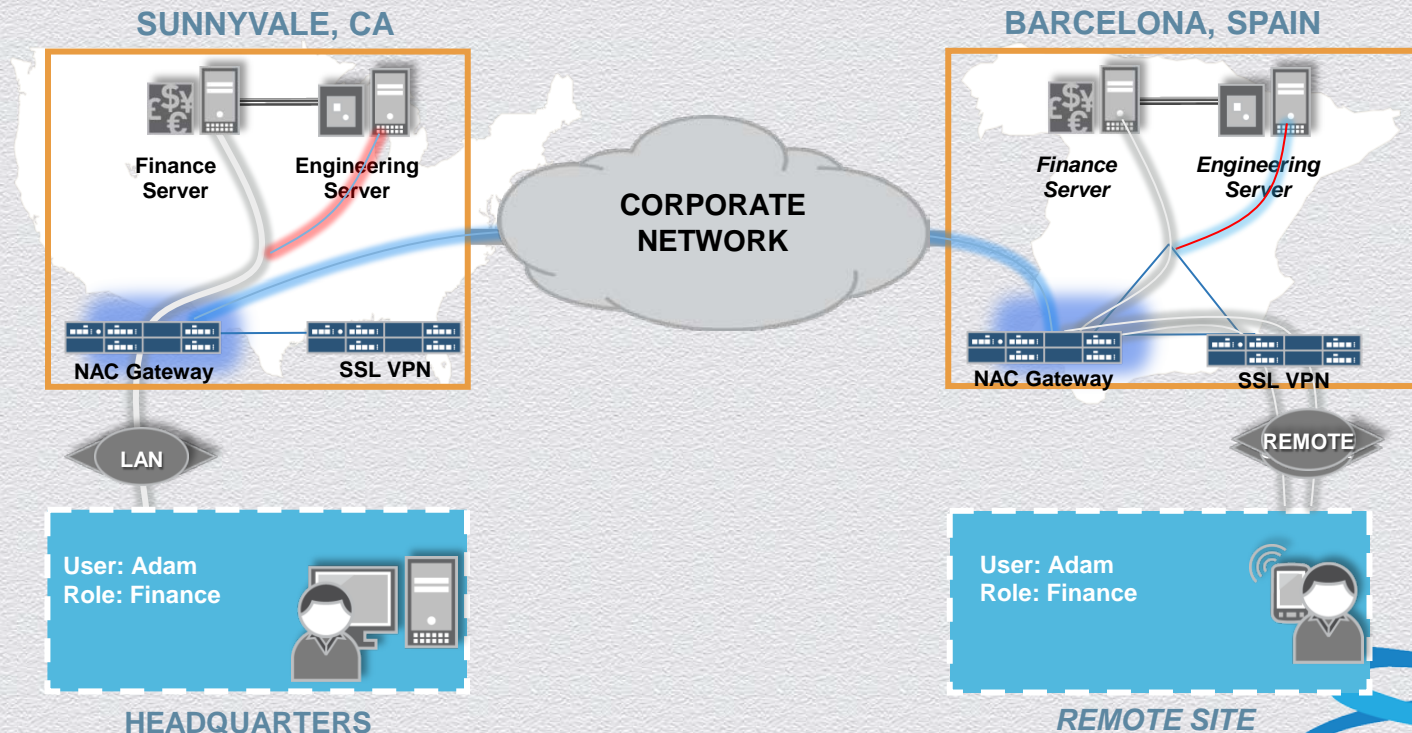

Session continuity

Accessing Secure Network Example – One Time

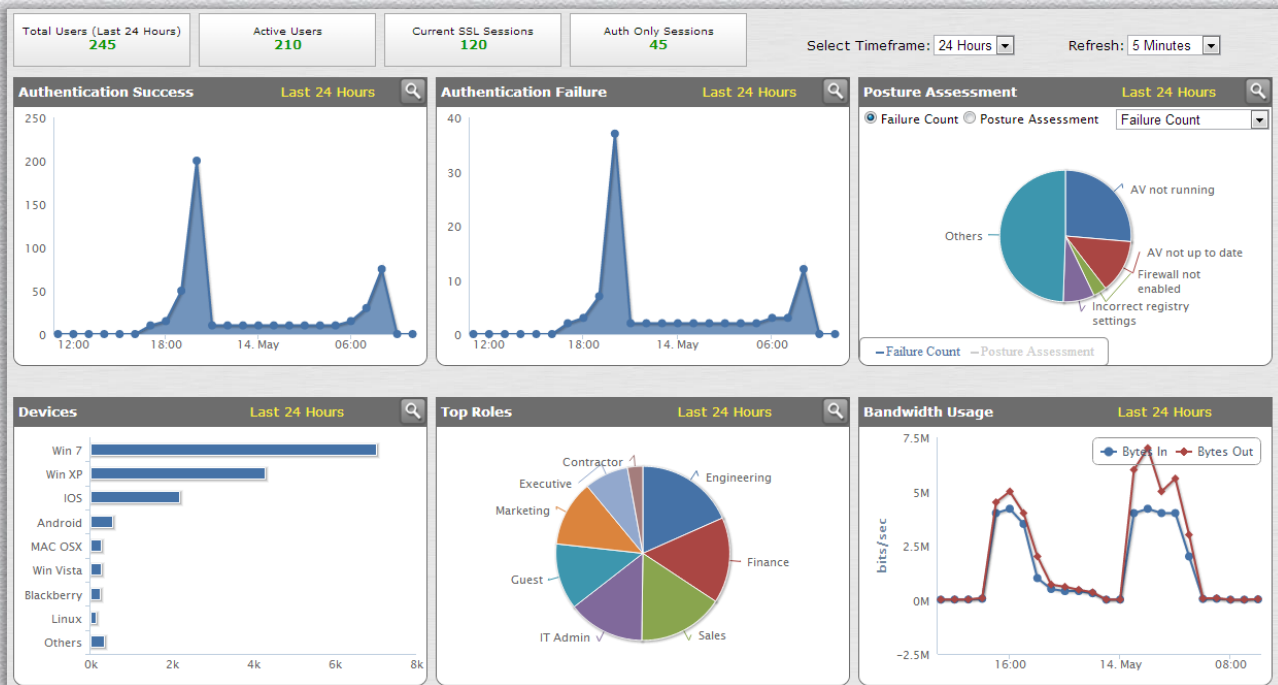

Behind the Scenes

Transparent and Secure Network Access from Anywhere

Consolidated IT Experience

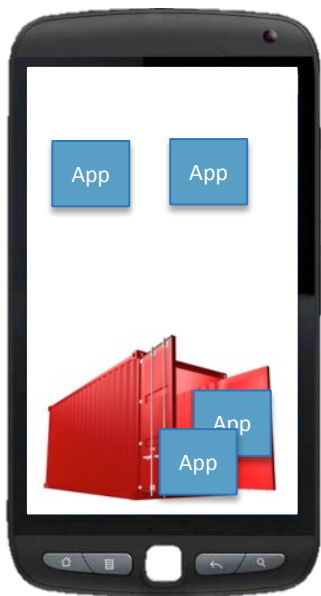

Single Policy

User Centric Management
(drill down to device)

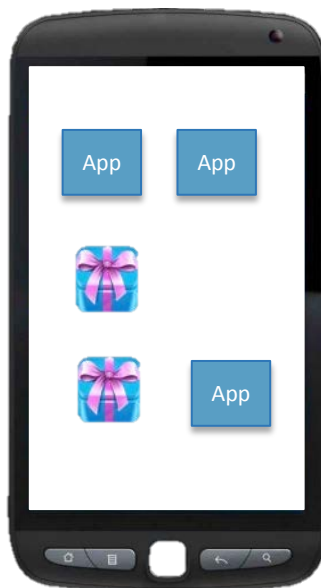

Consolidated Management and Reporting

Trend: Application Centric Connectivity/Policy

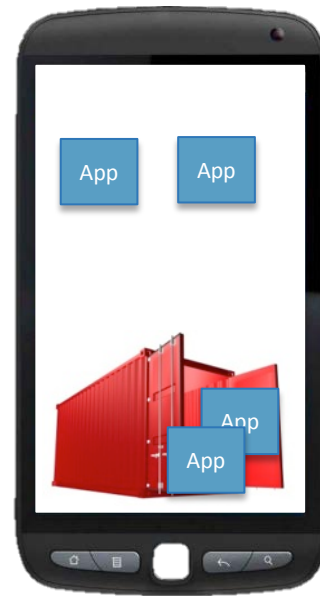

Application Containers

Application Wrappers

Native OS Facilities

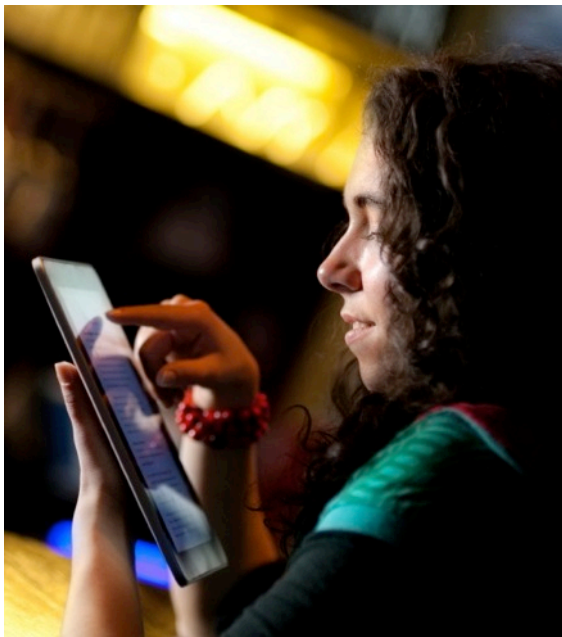

Your Pad? Or Mine? It Won't Matter

Any device

Anywhere

Private and Secure
